

AJUGA, BURGANDY GLOW	Perennial- plant in full to part shade. White, green, and burgundy foliage with 6" tall blue flower spikes in the summer. Spreading ground cover. Height 6". Width 2'. Zone 3-9.	Ajuga, reptant	
AJUGA, CATLINS GIANT	Perennial. Spreading, carpet like ground cover that takes shade to part sun. The large bronzy-blue foliage hosts deep blue 8" tall flower spikes throughout the summer. Height 8-10". Spread 1-2'.	Ajuga reptans	
AJUGA, PINK LIGHTNING	Perennial. Spreading, carpet like ground cover that takes shade to part sun. Pink flowers above variegated foliage in mid to late spring. Attracts butterflies and hummingbirds. Height 8-10". Spread 1-2'.	Ajuga reptans	
ALLIUM, MILLENIUM	Perennial. Foliage is deep green and grass like. Does not spread. Round purple flowers attract all pollinators. Deer resistant. Plant in full sun. Height 18". Width 12". Zone 3-9.	Allium millenium	
ARALIA, SUN KING	Perennial. Foliage is yellow/green. Shade loving. Height 2'. Width 2'. Zone 3-9.	Aralia cordata	
ARBORVITAE, AMERICAN PILLAR	Evergreen that should be planted in full to part sun. Fast growing with a dense and narrow form. Height 25'. Width 3-5'. Zone 3-7	Thuja occidentalis	
ARBORVITAE, ANNAS MAGIC BALL	Evergreen that should be planted in full to part sun. Bright chartreuse foliage that keeps a globe shape. Height 1-2'. Width 1-2'. Zone 3-8	Thuja occidentalis	
ARBORVITAE, EMERALD	Evergreen that should be planted in sun. Bright green foliage all year long. Height 15'. Width 4'. Zone 4-7.	Thuja occidentalis	
ARBORVITAE, FIRE CHIEF	Evergreen that should be planted in full to part sun. Foliage is orange and yellow. Moderate growth rate. Height 4'. Width 4'. Zone 3-7.	Thuja occidentalis	
ARBORVITAE, GOLDEN CHILD	Evergreen that should be planted in full to part sun. Yellow and green foliage is resistant to scorch. Rounded form. Height 18". Width 18". Zone 4-9.	Thuja occidentalis	

ARBORVITAE, GOLDEN GLOBE	Evergreen that should be planted in full sun. Golden yellow foliage with a round form. Height 3'. Width 3'. Zone 4-9.	Thuja occidentalis	
ARBORVITAE, GREEN GIANT	Evergreen that should be planted in full sun. Good for screening and fast growing. Height 25-30'. Width 8-10'. Zone 4-8.	Thuja occidentalis	
ARBORVITAE, HETZ MIDGETS	Slow growing globe shaped evergreen. Very low maintenance. Height and width 2-3'. Zone 3-9.	thuja occidentalis	
ARBORVITAE, HIGHLIGHTS	Evergreen that should be planted in full to part sun. Golden yellow foliage on an upright shrub. Height 8'. Width 4'. Zone 5-9.	Thuja occidentalis	
ARBORVITAE, HOLMSTRUP	Upright evergreen that has a medium growth rate. Tolerates poorly drained soils and requires full to part sun. Grows 5-7' tall and 2-3' wide. Zone 3-9.	Thuja occidentalis "holmstrup"	
ARBORVITAE, LITTLE GIANT	Slow growing, dwarf, globe-shaped. Requires little pruning to maintain shape. Rich green color. Very hardy. Prefers full sun, well-drained soil but will tolerate light shade & some poor drainage. H & S = 6.	Thuja occidentalis "Little Giant"	
ARBORVITAE, NORTH POLE	Evergreen that should be planted in full sun. Moderate growth rate and resistant to winterburn. Narrow and low maintenance. Height 10-15'. Width 3-5'. Zone 3-7.	Thuja occidentalis	
ARBORVITAE, PANCAKE	Evergreen that should be planted in full sun. Very fine textured foliage that is low growing. Height 1'. Width 1-2'. Zone 4-7.	Thuja occidentalis	
ARBORVITAE, SKYWALKER	Evergreen that should be planted full sun. Tight, upright form that is winter burn resistant. Drought tolerant and fast growing. Height 12-15'. Width 3-5'. Zone 3-7.	Thuja occidentalis	
ARBORVITAE, TECHNY	Excellent for screens or tall hedges. Fast growing. Very dark green. Full sun or light shade. Very winter hardy. H = 12-15. S = 6-8.	Thuja occidentalis "Techny"	

ARBORVITAE, TINY TOT	Evergreen that should be planted in full to part sun. Dwarf globe form with a medium growth rate. Height 1-2'. Width 1-2'. Zone 3-7.	Thuja occidentalis	
ARBORVITAE, YELLOW RIBBON	Yellow tinged evergreen that has an upright form. Grows in part to full sun and well drained soils. Height 8-10' Spread 2-3' Zone 3-9	Thuja occidentalis	
ASPEN, QUAKING	Pyramidal form. Leaves are green turning to yellow in the fall and the bark is greenish-white. Height 60-80' Spread 30' Zone 2-7	Populus tremuloides	
ASPEN, PRAIRIE GOLD	Pyramidal shape. Green leaves turn yellow in fall. Highly disease resistant and drought tolerant. Height 40'. Width 15'. Zone 4.	Populus tremuloides	
ASPEN, SUMMER SHIMMER	Upright form. Disease resistant, clean foliage all summer long. Fast growing. Yellow fall color. Height 30-40'. Width 15-20'. Zone 3.	Populus tremuloides	
ASTER, ALMA POTSCHKE	Perennial. Should be planted in full sun, tolerates wet or dry soils and salt. Reddish pink flowers with yellow centers bloom in late summer and attract butterflies. Height 3'. Width 3'. Zone 3-8.	aster novae-angliae	
ASTER, BEAUTY DARK BLUE	Perennial. Should be planted in full sun and has a medium growth rate. Deep blue flowers with yellow centers attract birds and butterflies. Blooms late summer. Height 8-10". Width 8-10". Zone 2-9	aster alpinus	
ASTER, PINK CRUSH	Perennial that prefers full sun. Late summer bloomer has bright pink daisy like flowers that are showy through fall. Attracts birds and butterflies. Height 20". Width 30". Zone 3-9.	aster novae-angliae	
ASTER, PURPLE DOME	Perennial. Fast growing plant that takes full sun. Drought tolerant and mildew resistant foliage. Does not do well in poorly drained soils. Semi double flowers in late spring and attract butterflies. Height 18" Spread 3'.	Aster novae-angliae	
ASTER, WINSTON CHURCHILL	Perennial that should be planted in full to part sun. Prefers moist soil. Purple daisy like flowers with a yellow center attract butterflies and pollinators. Height 15-18". Width 18". Zone 3-9.	aster novae	

ASTER, WOODS BLUE	Perennial- plant in full sun and well drained soil. Blue flowers with gold center bloom Aug-Oct and attract butterflies. Foliage is mildew resistant. Height 8-12” Spread 12-18” Zone 4-9	aster	
ASTER, WOODS PINK	Perennial. Compact plant that is mildew and rust resistant. Takes full sun and prefers moist, well drained soils. Blooms clear pink flowers late summer into fall. Height 12-16”. Spread 18-24”.	Aster dumosus	
ASTER, WOODS PURPLE	Perennial- prefers full sun. Blooms dark purple flowers Aug-Oct and attracts butterflies. Mildew resistant. Height 12-15” Spread 12-15” Zone 4-9	aster	
ASTILBE, BRIDAL VEIL	Perennial. Shade loving plant that is great for using in masses, pots, or alone in the landscape. Dark green foliage holds up large white flower spikes in spring-summer. Height 20-24”. Spread 18-24”.	Astilbe arendsii	
ASTILBE, CHOCOLATE SHOGUN	Perennial. Shade loving plant with dark purple foliage. Pink flower spikes late spring. Height 24”. Width 24”. Zone 3-9.	astilbe arendsii	
ASTILBE, DEUTSCHLAND	Perennial. Shade loving plant that is great for using in masses, pots, or alone in the landscape. Dark green foliage holds up large white flower spikes in spring-summer. Flower plumes up to 2’. Height 12”. Spread 18-24”.	Astilbe arendsii	
ASTILBE, FANAL	Perennial. Shade loving plant that does great in masses or alone. Dark reddish-green cut leaf foliage holds up brilliant red flower spikes. Height 24”. Spread 18-24”.	Astilbe arendsii	
ASTILBE, GLORIA	Perennial. Tolerates part sun to full shade. Snowy white blooms above glossy green foliage in summer. Height and width 18”. Zone 4-9.	astilbe arendsii	
ASTILBE, KEY WEST	Perennial. Shade loving plant with pink flower spikes. Height 12”. Width 12”. Zone 3-9.	astilbe simplicifolia	
ASTILBE, PEACH BLOSSOM	Perennial. Shade loving plant with a light peach bloom in late spring. Height 18”. Width 18”. Zone 3-9.	Astilbe japonica	

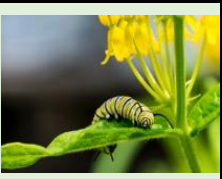

ASTILBE, RED SENTINEL	Perennial. Shade loving plant that does great in masses or alone. Dark green foliage holds up scarlet red flower spikes. Height 20-24". Spread 18-24".	Astilbe arendsii	
ASTILBE, RHEINLAND	Perennial. Vigorous growing plant that likes shade to part sun exposure. Green foliage holds large pink flower spikes. Looks good planted in masses, pots or alone. Height 24-30". Spread 18-24".	Astilbe japonica	
ASTILBE, VISIONS	Perennial- part shade. Large, fluffy, raspberry-pink spikes appear in mid-summer above the dark green cut leaf foliage. Height 15" Spread 18" Zone 4-8	astilbe chinesis	
ASTILBE, VISIONS IN WHITE	Perennial- part sun to shade. Creamy white blooms above glossy green foliage. Late season bloomer. Height 15-18" Spread 15-20" Zone 4-9	astilbe chinesis	
ASTILBE, WHITE GLORIA	Perennial. Shade loving with bright white blooms above green foliage. Height 24". Width 18". Zone 3-9.	aster novae-angliae	
AZALEA, GOLDEN LIGHTS	Hardy shrub that should be planted in full to part sun. Moderate growth rate. Covered in golden yellow flowers in the spring- early bloomer. Height 6'. Width 4'. Zone 3-7.	azalea	
AZALEA, LEMON LIGHTS	Cold hardy shrub that should be planted in part sun. Bright lemon yellow flowers cover this bush in the spring. Height 3'. Width 3'. Zone 4-7.	azalea	
AZALEA, ORCHID LIGHTS	Cold hardy shrub that should be planted in part sun. Lavender pink flowers cover this bush in the spring. Height 3'. Width 3'. Zone 3-9	azalea	
AZALEA, MANDARIN LIGHTS	Hardy shrub that should be planted in full to part sun. Moderate growth rate. Covered in mandarin orange flower in early spring. Height 4-5'. Width 3-4'. Zone 3-7.	azalea	
AZALEA, NORTHERN TRI LIGHTS	Hardy shrub that should be planted in full to part sun. Moderate growth rate. Blooms early spring- white, yellow and pink flowers. Height 6'. Width 4'. Zone 3-7.	azalea	

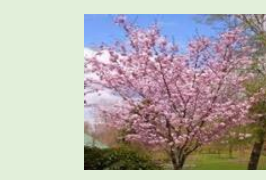

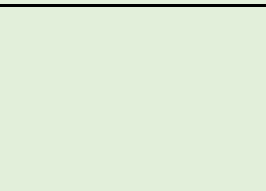

AZALEA, ROSEBUD	Shrub that should be planted in part shade. Slow growing with rose shaped pink flowers in the spring. Height 2-4'. Width 2-4'. Zone 5-9.	azalea	
BALD CYPRESS	Large tree that should be planted in full sun. Feathery green needle-like foliage turns yellow in fall before dropping. Very adaptable with a medium growth rate. Height 50-70'. Width 30'. Zone 4-11.	taxodium distichum	
BALD CYPRESS, SHAWNEE BRAVE	Medium size tree that has feathery, light green foliage. Upright form and medium growth rate. Adapts to many soils. Height 50', width 20'. Zone 4-11.	Taxodium distichum	
BAPTISIA, FALSE INDIGO	Perennial that should be planted in full to part sun. Indigo flowers in summer with blue foliage. Deer resistant, native, and attracts butterflies. Height 4'. Width 4'. Zone 3-9.	baptisia	
BAPTISIA, LEMON MERINGUE	Native perennial that likes full to part sun. Purple buds open to yellow flower spikes on dark black stems. Attracts hummingbirds and deer resistant. Height 3', width 3'. Zone 4-9.	Baptisia- false indigo	
BAPTISIA, PINK TRUFFLES	Native perennial that prefers full sun. Deer resistant. Attracts birds and butterflies. Blue green foliage with pink blooms. Height 3'. Width 3'. Zone 3-9.	Baptisia- false indigo	
BARBERRY, CONCORDE	Slow growing shrub with dark purple foliage. Has a rounded form and needs full sun for good color. Height 18" Spread 18" Zone 4-8	berberis thunbergii	
BARBERRY, CRIMSON PYGMY	Plant in full sun for best color. Dwarf, dense, spreading form is good for borders and hedges. Burgundy foliage turns to orange-scarlet in the fall. Height 2-2.5'. Spread 2-3'.	Berberis thunbergii	
BARBERRY, GOLDEN NUGGET	Compact shrub with golden foliage. Prefers full sun. Height 12" Spread 18" Zone 4-8	berberis	
BARBERRY, GOLDEN ROCKET	Shrub that should be planted in full sun. Moderate growth rate with an upright form. Yellow foliage. Height 3-5'. Width 2-3'. Zone 4-8.	berberis thunbergii	

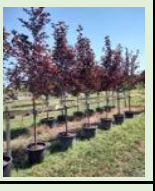

BARBERRY, HELMOND PILLAR	Plant in full sun for best color. Columnar form makes it good for hedges or accent. Yellow flowers in the spring with deep purple foliage. Height 6'. Spread 2-3'.	Berberis thunbergii	
BEE BALM, BLUE STOCKING	Native perennial that should be planted in full sun. Violet blue flowers mid to late summer. Height 3' and width 2'. Zone 4-9.	Monarda	
BEE BALM, CHERRY POPS	Perennial that should be planted in full sun. Blooms cherry red fragrant flowers that are 2" wide. Strong upright stems. Height 20". Width 20". Zone 4-8.	Monarda hybrida	
BEE BALM, GARDEN VIEW SCARLETT	Perennial that should be planted in full to part sun. Tubular red blooms in late summer. Highly disease and deer resistant. Good for pollinators. Height 36". Width 24". Zone 4-9.	Monarda didyma	
BEE BALM, RAPSBERRY DELIGHT	Perennial. Wine red flowers all summer into fall. Plant in full to part sun. Height 3'. Width 2'. Zone 4-9	monarda didyma	
BIRCH, DAKOTA PINNACLE	This tree was selected for its narrow, columnar habit. After several years, the bark matures to a yellowish-white. Tolerant of heat, drought, and alkaline soils. Dark green foliage. Shows excellent resistance to bronze birch borer. Single	Betula platyphylla "Fargo"	
BIRCH, HERITAGE	Interesting exfoliating bark ranges in color from creamy white to parchment. Green glossy foliage turns to golden yellow. Pyramidal to broad oval form. Tolerates wet, poorly drained soils. H = 45-50. S = 30-35. Vigorous growing tree.	Betula nigra "Cully"	
BIRCH, JAQUEMONTI WHITE PAPER	Medium sized shade tree that likes sandy soils. Bright white bark and yellow fall color. Height 40'. Width 30'. Zone 3-7.	betula utilis	
BIRCH, PARKLAND PILLAR	Medium sized, extremely columnar tree with bright white bark. Drought tolerant and fast growing. Height 40'. Width 5'. Zone 4-7.	Betula platyphylla	
BIRCH, RENIASSANCE OASIS	Medium sized shade tree that should be planted in full to part sun. Exfoliating white bark. Dark green foliage that turns yellow to gold in the fall. Height 50'. Width 30'. Zone 3-7.	betula papyrifera- paper birch	

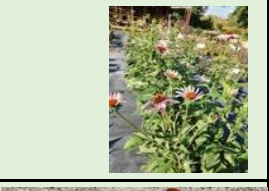

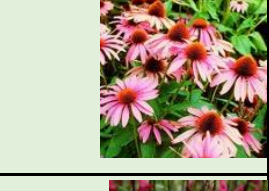

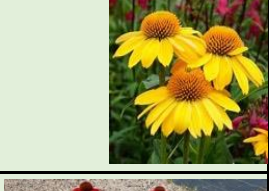

BIRCH, RIVER	Native to Midwest. Dark green foliage turns to yellow fall color. Cinnamon brown exfoliating bark. A fast grower which can be placed in wet areas or upland soil. Available in clump form. Resistant to bronze birch bore. Height to 45-50	Betula nigra	
BIRCH, ROYAL FROST	Fast growing, medium sized tree that should be planted in full to part sun. White bark with burgundy foliage that keeps a upright oval form. Zone 4-7. Height 30-40' and width 15-20'.	Betula	
BIRCH, SHILOH SPLASH RIVER	Smaller tree with variegated foliage. Slower growing with exfoliating bark. Height 12'. Width 6-8'. Zone 4-8.	Betula nigra	
BIRCH, WHITESPIRE	Fine textured twigs and foliage. Glossy dark green leaves turn to yellow in fall. Bark is chalk-white and does not exfoliate. Good in naturalized settings. Narrow pyramidal form. H = 30-40. S = 20. Available in Clump form.	Betula platphylla 'Whitespire'	
BLACK EYED SUSAN, DENVER DAISY	Treat as an annual. Plant in full sun- fast growing. Flowers have dark brown centers with yellow edges and are long blooming. Attracts birds and butterflies. Height 18-24". Width 18-24". Zone 5-9.	rudbeckia	
BLACK EYED SUSAN, GOLD RUSH	Perennial native. Fast growing and prefers full sun. Tolerates wet and humid climates. Blooms bright yellow flowers with black centers through fall. Height 2-3'. Width 3'. Zone 3-9.	rudbeckia fulgida	
BLACK EYED SUSAN, GOLDSTRUM	Perennial. Fast growing plant that takes full sun. Masses of golden daisy like flowers bloom all summer July- October. Seeds attract Goldfinches. Height 24-30". Spread 24-30".	Rudbeckia fulgida goldsturm	
BLACK EYED SUSAN, IRISH EYES	Perennial. Fast growing plant that takes full to part sun. 5" yellow daisy flowers bloom all summer July- October. Seeds attract Goldfinches. Height 24". Spread 24". Zone 2-9.	Rudbeckia	
BLACK EYED SUSAN, LITTLE GOLDSTAR	Heavy blooming native perennial. Fast grower that prefers full sun. Blooms summer through fall. Up to 80 flowers on a single plant. Height 12-18". Width 12-18". Zone 3-9.	rudbeckia fulgida	
BLACK EYED SUSAN, MINI	Perennial. Plant in full sun- moderate growth rate. Bright golden petals that attract birds and butterflies. Deer resistant. Height 12-18". Width 18-24". Zone 3-9.	rudbeckia	

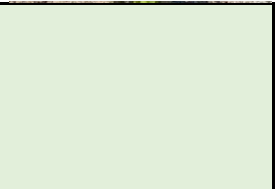

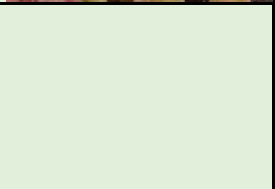

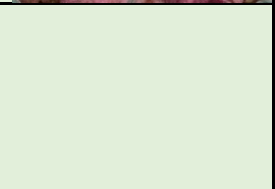

BLACK EYED SUSAN, PRAIRIE GLOW	Perennial that should be planted in full to part sun. Moderate growth rate. Orange petals tipped in yellow that bloom all summer long. Zone 4-8. Height 3' and width 2'.	Rudbeckia triloba	
BLEEDING HEART	Perennial. Plant in shade to full sun- prefers moist, well drained soils. Has pink heart shaped flowers in may through June and then dies back in mid summer. Height 24-30". Width 2-3'.	Dicentra spectabilis	
BLUE BEARD, DARK KNIGHT	Plant in full sun. Blue blooms in summer attract butterflies and hummingbirds. Deer resistant. Height 2'. Width 3'. Zone 5-9.	caryopteris clandonensis	
BLUE BEECH, AMERICAN HORNBEAM	Slow growing, medium sized native tree. Foliage is dark green in summer turning red and orange in the fall. Shade tolerant. Zone 3-9. Height 20-35' and width 20-35'.	carpinus caroliniana	
BLUE BEECH, NATIVE FLAME	Slow growing, medium sized native tree. Foliage is dark green in summer turning bright red in the fall. Shade tolerant. Zone 3-9. Height 20' and width 15'.	carpinus caroliniana	
BOXWOOD, CHICAGOLAND	Slow growing, compact evergreen. Plant in full to part sun- makes a good hedge. Height 3-4' Spread 3-4' Zone 4-9	buxus	
BOXWOOD, GREEN MOUNTAIN	Upright pyramidal form. Takes full sun and has dark green foliage year long. Good for hedging and shearing. Height 4-5'. Spread 3'.	Buxus koreana	
BOXWOOD, GREEN VELVET	Low mounding form. Mint green foliage year round. Make a good low hedge and tolerates shearing. Height 2-2.5'. Spread 2-3'.	Buxus	
BRUNERA, SILVER HEART	Perennial that should be planted in shade. Silver foliage with green veins. Tiny blue flowers in the summer. Height 1'. Width 2'. Zone 3-8.	brunera macrophylla	
BUCKEYE, YELLOW	Large native shade tree. Medium growth rate. Plant in full sun. May take years to produce nuts. Height 60-80'. Width 30'. Zone 4-8.	aesculus flava	

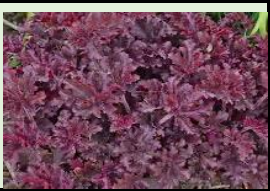

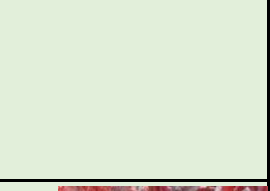

BUCKTHORNE, FINE LINE IMPROVED	Plant in full to part sun. Narrow upright form make this a great accent plant or hedge use. Fine textures skinny green foliage that is deer resistant. Height 5-7'. Width 3-5'. Zone 2-8.	Rhamnus frangula	
BURNING BUSH, COMPACT	Dwarf form, dense, compact. Green foliage turns to bright red in fall. Corky bark. Excellent hedge plant which does not require pruning. H = 5-7. S = 5-8.	Euonymus alatus "Compacta"	
BUTTERFLY BUSH, BI-COLOR	Perennial that prefers full sun. Golden, pink and purple flower spikes that attract butterflies and hummingbirds all summer long. Deer resistant. Height and width 5-6'. Zone 4-9.	buddleia x	
BUTTERFLY BUSH, GOLDEN GLOW	Plant in full sun. Golden yellow flower spikes in summer that attract butterflies and hummingbirds. Height 5-10'. Width 5-7'. Zone 5-9.	buddleia	
BUTTERFLY BUSH, PETITE PURPLE	Plant in full sun. Purple flower spikes in summer that attract butterflies and hummingbirds. Height 4'. Width 3'. Zone 5-9.	buddleia	
BUTTERFLY BUSH, PUGSTER PERRIWINKLE	Shrub that should be planted in full sun. Dwarf variety with amethyst colored blooms in the summer. Attracts butterflies and hummingbirds. height 2'. Width 2'. Zone 5-9.	buddleia x	
BUTTERFLY BUSH, PUGSTER WHITE	Shrub that should be planted in full sun. Dwarf variety with white colored blooms in the summer. Attracts butterflies and hummingbirds. height 2'. Width 2'. Zone 5-9.	buddleia x	
BUTTERFLY FLOWER, HELLO YELLOW	Perennial that should be planted in full sun. Bright yellow flowers in summer attract butterflies and hummingbirds. Native. Height 24". Width 24". Zone 3-8.	Asclepias tuberosa	
BUTTERFLY FLOWER, ICE BALLET	Perennial that should be planted in full sun. White flowers in summer attract butterflies and hummingbirds. Native. Height 3-4. Width 2'. Zone 4-9.	Asclepias tuberosa	
CARDINAL FLOWER, GREAT BLUE	Perennial. Native. Does well in part sun. Blue flower spikes in summer that attracts butterflies and hummingbirds. Height 3'. Width 2-3'. Zone 4-9	lobelia siphilitica	

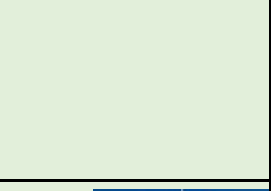

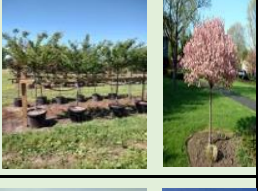

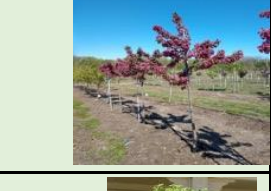

CARDINAL FLOWER, QUEEN VICTORIA	Perennial that should be planted in full to part sun. Deep red flowers in summer. Deer and rabbit resistant, native, and attracts hummingbirds and butterflies. Height 3'. Width 2'. Zone 4-8.	lobelia	
CATALPA, NORTHERN	Large native shade tree that should be planted in full to part sun. Fast grower with irregular shape. White flowers in the spring that attract hummingbirds. Height 60'. Width 40'. Zone 5-9.	catapla x speciosa	
CATMINT, KITTEN AROUND	Perennial that should be planted in full sun. Compact form with blue flower spikes in the summer through fall. Height 12". Width 20". Zone 3-8.	Nepeta faassenii	
CATMINT, PURRSIAN BLUE	Perennial that should be planted in full sun. Deer resistant, rounded form. Nice, fragrant violet blue flowers all summer long. Height 12". Width 18". Zone 3-8.	Nepeta faassenii	
CATMINT, WALKERS LOW	Perennial. Takes full to part sun and has a compact mounding form. Gray-green foliage contrasts nicely with the lavender flowers. Height 18-24". Spread 24-36".	Nepeta faassenii	
CHERRY, PINK FLAIR	Ornamental tree that should be planted in full sun. Upright vase shaped form. Blooms pink later in spring to avoid the frost. Fall foliage is bright orange and red. Zone 3-8. Height 25' and width 15'.	prunus	
CHERRY, PINK MIST	Pink flowering ornamental tree. Columnar shaped and fast growing. Height 30'. Width 15'. Zone 4.	prunus	
CHERRY, PINK SHOWERS WEEPING	Ornamental tree that should be planted in full sun. Double pink flowers in the spring. Green leaf's that turn yellow in the fall. Height 25'. Width 25'. Zone 4-8.	Prunus x pishnzam	
CHERRY, SNOW FOUNTAINS WEEPING	Small ornamental tree that is short lived. Plant in full sun. Slow growing with white flowers in spring. Height 12-15'. Width 15-20'. Zone 4-8.	Prunus x snowfozam	
CHESTNUT, CHINESE	Native nut tree. Spreading form with copper fall color. White spring flower. Plant 2 or more for heavy nut production. Height and width 40'. Zone 4-9.	casteanea mollissima	

CHESTNUT, FT MCNAIR	Unusual compound bright green leaves. Upright form. Blooms in late spring with dark pink panicles 6-8" long followed by large light brown fruit capsules. Yellow to red fall color. Rounded dense form, 40-50' tall, 30' spread.	Aesculus X carnea "Ft McNair"	
CHOKEBERRY, BLACK	Glossy green foliage turns to wine-red in fall. Large white flowers in May followed by black fruits. Full sun to part shade. Open form. H & S = 4-6.	Aronia melanocarpa elata	
CHOKEBERRY, VIKING	Shrub that is fast growing and handles many different soil types. Plant in full sun. Rounded habit has white flowers in the spring followed by black fruit loved by birds. Height 3-4'. Width 4-5'. Zone 3-8.	aronia melanocarpa	
CHOKECHERRY, CANADA RED	Tough and hardy ornamental tree that should be planted in full to part sun. New foliage emerges green then turning red, Rounded form. White flowers in the spring followed by tiny black fruit. Height 25-30'. Width 15-20'. Zone 2-9	Prunus virginiana	
CLEMATIS, BLUE RIBBON	Shrubby perennial. Plant in full to part sun. Bell shaped indigo flowers in late spring. Height and width 12". Zone 3-9.	clematis integrifolia	
CLEMATIS, JACKMANI	Perennial. Plant in full to part sun. Fast growing vine that has deep purple flowers- the best of the purple clematis. Blooms June through frost. Trim back in spring. Height 10-12'. Width 4-6'.	Clematis	
CLEMATIS, SWEET AUTUMN	Perennial vine that should be planted in full sun. Fragrant 1" white flowers bloom in the fall. Height 15'. Zone 4-8.	Clematis paniculata	
CONEFLOWER, ARTISAN ORANGE	Perennial that should be planted in full to part sun. Vigorous grower that blooms 3" intense orange flowers with an orange cone. Height 24". Width 18". Zone 4-9.	Echinacea	
CONEFLOWER, CHEYENNE SPIRIT	Perennial. Plant in full sun. Mix of red, pink, orange, yellow, and purple flowers attract butterflies. Height 24". Width 24". Zone 4-9.	enchinacea	
CONEFLOWER, GREEN JEWEL	Perennial that should be planted in full to part sun. Light green flowers bloom in the summer and attracts butterflies. Deer resistant. Height 2'. Width 1-3'. Zone 4-9.	echinacea	

CONEFLOWER, GREEN TWISTER	Perennial that should be planted in full sun. 4" daisy like blooms that are green with pink centers. Drought tolerant and deer resistant. Pollinator magnets. Height 3'. Width 2'. Zone 3-9.	Echinacea purpurea	
CONEFLOWER, MELLOW YELLOW	Perennial that should be planted in full to part sun. Pollinator friendly. Pale yellow to cream flowers that bloom from spring through first. Height 18". Width 24". Zone 4-8.	Echinacea	
CONEFLOWER, POW WOW WHITE	Perennial that should be planted in full to part sun. Large white flowers in spring attract many pollinators. Zone 3-8. Height 2-3' and width 1.5'.	Echinacea purpurea	
CONEFLOWER, POW WOW WILDBERRY	Perennial. Plant in full to part sun. Large pink-purple flowers in summer. Attracts butterflies. Height 2-3'. Width 1-2'. Zone 3-8.	echinacea	
CONEFLOWER, PALE PURPLE	Perennial native prairie plant. Plant in full sun. Pale purple flowers bloom in the summer with drooping petals. Deer resistant and pollinator friendly. Height 3-5'. Width 18". Zone 3-9.	Echinacea pallida	
CONEFLOWER, PRAIRIE SPLENDOR	Perennial. Plant in full to part sun. Fast growing with 4-6" large rose pink flower from June through frost. Attracts butterflies. Height 2'. Width 2'. Zone 3-9.	echinacea	
CONEFLOWER, PURPLE EMPEROR	Perennial that should be planted in full to part sun. Large fragrant magenta purple flowers on sturdy stems. Pollinator magnets. Height 18". Width 12". Zone 4-8.	Echinacea	
CONEFLOWER, PURPLE MAGNUS	Perennial native that attracts pollinators. Plant in full to part sun- vigorous grower. Blooms summer through fall. Purple pink flowers with dark center. Height and width 3-4'. Zone 4-9.	Echinacea purpurea	
CONEFLOWER, SOMBRERO LEMON YELLOW	Perennial that should be planted in full sun. Bold yellow flowers attract butterflies and pollinators. Height 2'. Width 2'. Zone 4-9.	echinacea	
CONEFLOWER, SOMBRERO SALSA RED	Perennial that should be planted in full sun. Bright red flowers attract butterflies and pollinators. Height 2'. Width 2'. Zone 4-9.	echinacea	

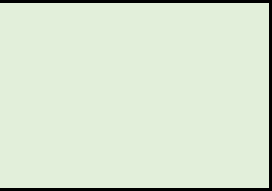

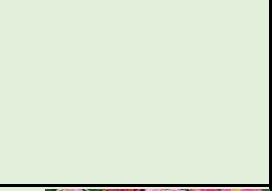

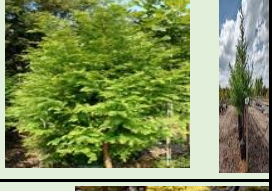

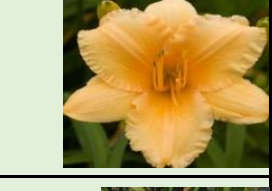

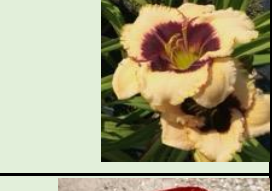

CONEFLOWER, TANGER	Perennial that should be planted in full sun. 3.5' tangerine flowers bloom all summer. Attracts pollinators. Height 24". Width 18". Zone 4-9.	Echinacea	
CONEFLOWER, ZENITH SUN DIAL	Perennial that should be planted in full to part sun. Light yellow flowers with pom-pom like centers bloom in the summer. Attracts pollinators. Height and width 18". Zone 4-9.	Echinacea	
CORALBELL, BERRY TIMELESS	Perennial that can be planted sun or shade. Mint green foliage laced with silver and has light pink flowers that attract pollinators. Deer resistant. Height 10". Width 18". Zone 4-8.	heuchera	
CORALBELL, BLACK PEARL	Perennial that can be planted in sun or shade. Black foliage with rose undertones and a white flower stalk. Height 8-10". Width 18". Zone 4-9.	Heuchera	
CORALBELL, CARMEL	Perennial- part shade, heat tolerant. Bright golden to caramel color, light pink wispy flower stems in late spring. Height 15" Spread 20" Zone 4-8	heuchera	
CORALBELL, GRAPE EXPECTATIONS	Perennial that should be planted in part shade. Vibrant purple foliage with white sprays of flowers. Height 12". Width 24". Zone 4-9	heuchera villosa	
CORALBELL, LAVA LAMP	Perennial that can be planted in sun or shade. Large mass of foliage that has various purple shades. White flower stalks. Height 16". Width 28". Zone 4-9.	Heuchera	
CORALBELL, LEMON LOVE	Perennial that should be planted in part shade. Scorch resistant chartreuse foliage. Height 12". Width 36". Zone 4-9.	heuchera villosa	
CORALBELL, MARMOLADE	Perennial that can be planted in sun or shade. Amber pink foliage. Likes sandy soils. Height and width 18". Zone 4-9.	heuchera	
CORALBELL, MARVELOUS MARBLE	Perennial. Plant in part to full shade. Green, silver, and purple foliage with airy white flowers. Height 12". Width 16". Zone 4-9.	heuchera	

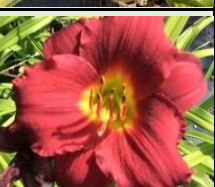

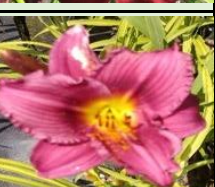

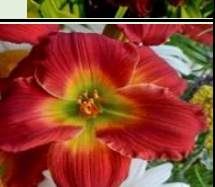

CORALBELL, MELTING FIRE	Perennial that should be planted in full to part sun. Red purple foliage with white flowers in May. Height 8-18". Width 18". Zone 4-9.	heuchera	
CORALBELL, MIDNIGHT ROSE	Perennial that should be planted in full to part sun. Black foliage with pink splashes of color. Height and width 18". Zone 4-9.	heuchera	
CORALBELL, OBSIDIAN	Perennial that should be planted in part shade. Near black foliage with white flower sprays. Height and width 12". Zone 4-9	heuchera	
CORALBELL, PEACH FLAMBEE	Perennial that can be planted in either sun or shade. Red-peach foliage. Height and width 12". Zone 4-8.	heuchera	
CORALBELL, PINK PANTHER	Perennial that should be planted in part shade. Metallic pink foliage with dark veins. Height 12". Width 18". Zone 4-9.	heuchera	
CORALBELL, PURPLE PALACE	Perennial. Large red-purple leaves create a mounding form. Sprays of white flowers appear on tall stems. Height 18". Spread 18".	Heuchera	
CORALBELL, RUBY BELLS	Perennial that should be planted in full to part shade. Green foliage with bright red flowers in the spring. Pollinator magnet. Zone 3-8. Height 12-18" and width 15".	Heuchera	
CORALBELL, TIMELESS GLOW	Perennial that should be planted in part shade. Chartreuse yellow foliage with pink flower stalks. Height 8-10". Width 14-16". Zone 4-9.	Heuchera	
CORALBELL, TWIST OF LIME	Perennial that should be planted in shade. Wavy yellow foliage. Attracts butterflies. Height 10". Width 12". Zone 4-9.	heuchera	
CORALBELL, WILDBERRY	Perennial that should be planted in part sun. Bright purple foliage. Height and width 18". Zone 4-9.		

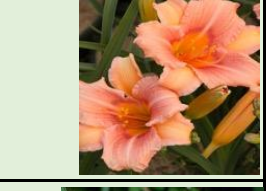

COREOPSIS, BERRY CHIFFON	Perennial that should be planted in full sun. Thread leaf foliage has white and raspberry colored flowers all summer. Mildew resistant. Height 15-18". Width 18-24". Zone 4-9.	Heuchera	
COREOPSIS, MOONBEAM	Perennial. Drought tolerant plant that likes full sun. Airy green foliage with creamy yellow flowers. Height 12-18". Spread 12-18".	Coreopsis verticillata	
COREOPSIS, ZAGREB	Perennial. Plant in full sun. Prolific golden yellow blooms all summer long. Height 12". Width 18". Zone 4-9.	coreopsis verticillata	
COREOPSIS, ZAMPHIR	Perennial. Plant in full sun. 2" yellow flowers-prolific bloomer. Height 18". Width 18". Zone 4-9.	coreopsis auriculata	
CRAB, ADIRONDACK	Ornamental upright tree. Clean disease resistant green foliage. Heavy flowering- white. Pink fruit in the fall. Height 18'. Width 10'. Zone 4-8.	malus	
CRAB, CENTURION	Rose-red flowers followed by cherry-red fruit. Reddish foliage in spring matures to bronze-green. Fall color is rust-orange. Upright narrow branching, becomes more rounded with age. Resistant to apple scab. Height to 25 feet, spread	Malus "Centzam"	
CRAB, CORALBURST	Small ornamental tree with a round compact habit. Double pink blooms with green foliage. Yellow fruit in the fall. Disease free. Height 10'. Width 15'. Zone 3-7.	malus	
CRAB, GOLDEN RAINDROPS	Late-season bloomer with pink buds opening to star-like white flowers, followed by tiny golden fruit. Burgundy fall color. Unique deep cut, glossy green, fine textured leaves. Vase shaped habit. Resistant to Japanese beetles. Height to	Malus transitoria "Schmidtcutleaf"	
CRAB, INDIAN MAGIC	Low spreading tree with a rose-pink flower in the spring. Fall foliage is red and orange and also displays small bright red fruit. Height 15' Spread 15' Zone 4-8	malus	
CRAB, LOLLIPOP	Small ornamental tree that is perfectly round. White flowers with green foliage. Red berries in the fall. Height and width 8'. Zone 4-8.	malus	

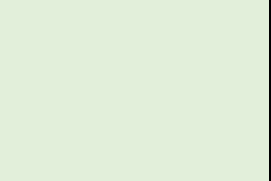

CRAB, LOUISA	Weeping crab. Bears red buds that will open to true pink flowers. Dark glossy foliage. Persistent golden yellow fruit. Resistant to disease and Japanese beetles. Height and spread 15 feet. Zone 4.	Malus "Louisa"	
CRAB, PERFECT PURPLE	Ornamental tree with dark pink flowers. Purple foliage. Upright rounded form. Height and width 20'. Zone 4-7.	malus	
CRAB, PRAIRIFIRE	Single coral-red flowers, later than most. Foliage is red-tinted when emerging, turning green in summer and reddish in fall. Red fruit. Glossy dark red bark. Upright, spreading form. 1996 Iowa Tree of the Year. Excellent disease	Malus "Prairifire"	
CRAB, RED JEWEL	Single white blossoms in mid to late spring. Dark green foliage. Cherry-red fruit is persistent through the winter. Upright, pyramidal form. Good disease resistance. Height to 18 feet, spread to 12.	Malus "Jewelcole"	
CRAB, ROYAL GEM	Plant in full sun. Compact, angular form that bears a red flower in the spring. summer foliage is crimson red to green. Fall fruit is dark red and small. Height 5-8' Spread 5-8'	malus	
CRAB, ROYAL RAINDROPS	Plant in full sun. Foliage is purple with excellent disease resistance. Has an upright spreading form with a pink flower in the spring and red fruit in the summer and winter. Height 20'. Spread 15'.	Malus	
CRAB , ROYALTY	Ornamental tree with dark purple flowers. Purple foliage and red fall color. 1/2" red fruit in the fall. Height and width 15'. Zone 4-8.	malus	
CRAB, RUBY DAZE	Ornamental upright tree. Disease free green foliage with pink flowers. Tightly oval form. Tiny red fruit in the fall. Height 20'. Width 15'. Zone 4.	malus	
CRAB, SHOWTIME	Ornamental tree with dark green to red foliage. Red flower in the spring. Red fruit in the fall. Fiery orange red fall color. Height 25'. Width 20'. Zone 4-8.	malus	
CRAB, SPARKLING SPRITE	Small ornamental tree with a dense compact form. Green foliage that is disease free. Pink buds open to white flowers- heavy bloomer. Golden orange fall color. Height and width 12'. Zone 4-8.	malus	

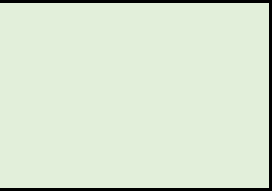

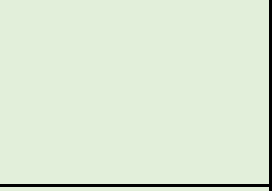

CRAB, SPRINGSNOW	Fruitless Canadian introduction, covered with pink buds that open to fragrant white flowers in early spring. Bright green summer foliage. Fruitless. Height 20-25. Spread 15-20 feet.	Malus "Spring Snow"	
CRAB, STARLITE	Ornamental tree that has an upright form. Fragrant white flowers cover the tree in the spring. Green foliage with red fruit. Yellow fall color. Height 20'. Width 15'. Zone 4-8.	malus	
CRAB, SUGARTIME	Pale pink buds open to sugary white fragrant single flowers. Persistent red fruit. Upright, oval form. Height and spread 15-20 feet. Good disease resistance.	Malus "Sutyzam"	
CRAB, THUNDERCHILD	Plant in full to part sun, medium growth rate. Upright form that has pink flowers in the spring. Summer foliage is purple to green. Fall fruit is 1/2" and purple. Height 15-20' Spread 12-15'	malus	
CRAB, TINA	Small ornamental tree that is disease resistant. Dense spreading form. Red buds open to white flowers in the spring. Green foliage with tiny red fruit in the fall. Height 8'. Width 6'. Zone 4-7.	malus	
CRAB, VELVET PILLAR	Flowering ornamental tree. Plant in full sun. Purple foliage with single pink flowers in the spring. Very sparse red fruit. Height 20'. Width 12'. Zone 3-9.	malus	
CYPRESS, GOLD MOPS	Evergreen that should be planted in full to part sun. Slow grower with bright yellow foliage. Height and width 3'. Zone 4-8.	Chamaecyparis	
CYPRESS, GOLDEN CHARM	Plant in full sun- slow grower. Compact, pyramidal form. Yellow-green foliage that is deer resistant. Height 5' Spread 7-8' Zone 4-8	chamaecyparis pisifera filifera	
CYPRESS, HINOKI SLENDER	Evergreen that should be planted in full sun. Pyramidal form with arching branches. Good for screening and hedges. Height 8-12'. Width 4-5'. Zone 4-8.	Chamaecyparis obtusa gracillis	
CYPRESS, SUNGOLD	Evergreen that should be planted in full sun. Compact pyramidal form with green-yellow foliage. Height 5-6'. Width 7-8'. Zone 4-8.	chamaecyparis pisifera	

DAISY, CARPET ANGEL	Perennial groundcover. Plant in full sun to part shade. Deer and rabbit resistant. 3" white flowers cover the plant spring-summer. Attracts pollinators. Height 6". Width 20". Zone 4-8.	Leucanthe mum	
DAISY, CREAM PUFF	Perennial that should be planted in full sun. Compact habit with lemon buds that open to white daisy flowers 3-4" wide. Pollinator magnets. Height 14". Width 26". Zone 5-9.	Leucanthe mum superbum	
DAISY, LUNA	Perennial that should be planted in full sun. Blooms early summer through fall. Large creamy flowers with bright yellow center. Deer and rabbit resistant. Pollinator friendly.	Leucanthe mum	
DAISY, PAINTED ROBINSON	Perennial that should be planted in full to part sun. Blooms a mix of pink, white and red flowers with yellow center. Attracts butterflies. Height 2-3'. Width 2'. Zone 3-9.	chrysanthe mum	
DAWN REDWOOD	Large shade tree with evergreen like foliage that turns orange-yellow before dropping in the fall. Plant in full sun. Height 70'. Width 25'. Zone 3-10.	metasequoi a	
DAWN REDWOOD, GOLD RUSH	Large tree to be planted in full sun. Showy chartreuse needle like foliage in the summer changes to burnt orange in the fall. Height 50'. Width 20'. Zone 3-10.	metasequoi a	
DAYLILY, APRICOT SPARKLES	Perennial that should be planted in full to part sun. Reliable rebloomer. 3" apricot colored blooms. Height 15". Width 18-24". Zone 3-9.	Hemerocallis	
DAYLILY, BLACKTHORNE	Perennial. Plant in full to part sun. Creamy yellow flowers with a purple center bloom all summer long. Height and width 24". Zone 3-9.	hemerocallis	
DAYLILY, DESERT FLAME	Perennial that should be planted in full to part sun. Fast growing mid season bloomer with 5.5" flaming red/orange flowers. Height 3'. Width 2'. Zone 3-9.	hermerocallis	
DAYLILY, EVERYDAY CREAM	Perennial that should be planted in full to part sun. Reblooming creamy yellow flowers summer through fall. Offspring of Stella. Height 12". Width 12". Zone 4-10.	Hemerocallis	

DAYLILY, EVERYDAY PINK WING	Perennial that should be planted in full to part sun. Reblooming pink flowers summer through fall. Offspring of Stella. Height 12". Width 12". Zone 4-10.	Hemerocallis	
DAYLILY, HANDWRITING ON THE WALL	Perennial that should be planted in full to part sun. Fragrant 6" flowers that are multicolored purple and yellow shades. Rebloomer. Height 24". Width 24". Zone 3-9.	Hemerocallis	
DAYLILY, HAPPY RETURNS	Perennial that should be planted in full to part sun. Bright yellow flowers bloom early in the season. Rebloomer. Height 15". Zone 4-11.	Hemerocallis	
DAYLILY, KOKOMO SUNSET	Perennial that should be planted in full sun. 4" yellow gold flowers with red ring. Early bloomer with multiple bloom cycles. Height 18". Zone 4.	Hemerocallis	
DAYLILY, LITTLE BUSINESS	Perennial. Fast growing plant that takes full sun. Clumping form grass like foliage. Profuse red flowers with yellow centers re-bloom all summer. Height 15-18". Spread 15-18".	Hemerocallis	
DAYLILY, LITTLE GRAPETTE	Perennial. Fast growing plant that takes full sun. Clumping form grass like foliage. Profuse purple flowers with yellow centers re-bloom all summer. Height 15-18". Spread 15-18".	Hemerocallis	
DAYLILY, MARQUE MOON	Perennial. Plant in full sun. Ruffled fragrant white flowers with yellow edges. Re-bloomer. Height and width 24". Zone 3-9.	Hemerocallis	
DAYLILY, MINI PEARL	Perennial. Full to part sun plant with grass like clumping foliage. Blush pink flowers re-bloom all summer. Height 18". Spread 24".	Hemerocallis	
DAYLILY, PARDON ME	Perennial. Plant in full sun. 2.5" cranberry red flowers are held above grass like foliage. Blooms mid season through fall. Height 18". Width 24";	Hemerocallis	
DAYLILY, RED HOT RETURNS	Perennial that should be planted in full to part sun. Continuous blooming red flowers with a yellow throat. Height 24-28". Width 18-24". Zone 4-8.	Hemerocallis	

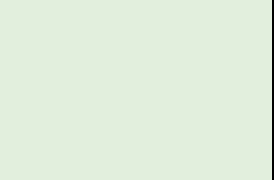

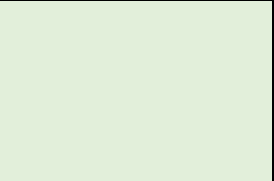

DAYLILY, ROSY RETURNS	Perennial- full sun. Rose pink flowers with deep pink center and yellow throat. Blooms June through frost. Height 14” Spread 14” Zone 3-9	hemerocallis	
DAYLILY, SKYE LEMON	Perennial that should be planted in full sun. Buttery yellow flowers with ruffled edges. Continuous bloomer. Height 18". Zone 4-11.	Hemerocallis	
DAYLILY, SOMBRERO WAY	Perennial- full sun to part shade- cold hardy. Large orange flowers in April, re-bloomer. Attracts hummingbirds and butterflies. Height 2’ Spread 2’ Zone 3-9	hemerocallis	
DAYLILY, STELLA DE ORO	Perennial. Full sun, fast growing plant. Clumping form of grass like foliage. Heavy yellow flowers that bloom early in the season and re-bloom all summer. Height 12”. Spread 24”.	Hemerocallis	
DAYLILY, STEPHANIE RETURNS	Perennial that should be planted in full to part sun. 4" pale pink flower with a purple eye. Rebloomer. Height 16-18". Width 18-24". Zone 3-9.	Hemerocallis	
DAYLILY, STORM SHELTER	Perennial that should be planted in full to part sun. Rich color saturated mauve and dark purple 5" blooms. Rebloomer. Height 24". Width 18-24". Zone 3-9.	Hemerocallis	
DAYLILY, WHEN MY SWEETHEART RETURNS	Perennial that should be planted in full to part sun. Everblooming with peachy yellow flowers and a rose eye. Height 14". Width 18-24". Zone 3-9.	Hemerocallis	
DIANTHUS, BLACK CHERRY	Perennial that should be planted in full sun. Deep red flowers bloom all summer and attracts butterflies and hummingbirds. Height 18”. Width 12”. Zone 3-9.	dianthus	
DIANTHUS, COCONUT SURPRISE	Perennial that should be planted in full sun. White flowers with burgundy centers bloom all summer. Blue-green mounding foliage. Height 8”. Width 12”. Zone 5-9.	dianthus	
DIANTHUS, FIRE WITCH	Perennial- full sun. Fragrant deep pink flowers that bloom in spring and in fall. Blue-green grass like foliage. Height 6” Spread 9” Zone 3-9	dianthus	

DIANTHUS, FIRST LOVE	Perennial that should be planted in full sun. Flowers changes from white to rose as they age. Blooms all summer. Deer resistant and pollinator friendly. Height 15-20". Width 12-15". Zone 3-9.	Dianthus hybrida	
DIANTHUS, KEY LIME	Perennial that should be planted in full sun. White flowers with a lime center bloom all summer. Height 12". Width 12". Zone 5.	Dianthus	
DIANTHUS, PAINT THE TOWN MAGENTA	Perennial that should be planted in full to part sun. 1" magenta flowers cover the blue grass like foliage in mid summer. Height 6-8". Width 12-14". Zone 4-9.	Dianthus	
DIANTHUS, PINBALL WIZZARD	Perennial that should be planted in full to part sun. Large pink and white flowers above blue-green foliage. Deer resistant. Height 12". Width 12". Zone 4-8.	dianthus	
DIANTHUS, RAINBOW LOVLIENESS	Perennial that should be planted in full sun. Lacy purple, pink and red flowers. Rabbit resistant. Height 12". Width 12". Zone 4-8.	dianthus	
DIANTHUS, SUPRA PINK	Perennial that should be planted in full to part sun. Flowers are different colors of pink with ruffled edges. Deer resistant and pollinator friendly. Height 10-12". Width 12". Zone 4.	Dianthus superbus	
DIANTHUS, WHITE TWINKLE	Perennial that should be planted in full sun. Small mounding habit of white flowers and a red center. Blooms spring through fall. Height 8". Width 14". Zone 5-9.	Dianthus	
DIERVILLA, KODIAC BLACK	Shrub that should be planted in full sun to shade. Smokey burgundy black foliage that bears yellow flowers in July and August. Zone 4-8. Height and width 3-4'.	Diervilla rivularis	
DIERVILLA, KODIAC FRESH	Native shrub that can be planted in either sun or shade. Lime yellow foliage turns orange in the fall. Deer resistant. Yellow flowers. Height and width 2-3'. Zone 3-8.	diervilla	
DIERVILLA, KODIAC ORANGE	Native shrub that can be planted in full sun to full shade. New growth is orange and fall color is a fantastic red. Yellow flowers in July. Height 3-4'. Width 3-4'. Zone 4-7.	diervilla	

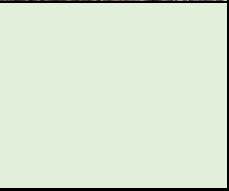

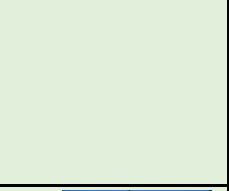

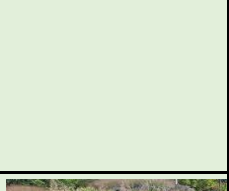

DOGWOOD, ARTIC FIRE	Shrub that should be planted in full to part sun. Compact habit. Dark green foliage with bright red stems. White flowers in the spring. Height and width 3-5'. Zone 2-7.	cornus	
DOGWOOD, CORNELIAN CHERRY TREE	Bright yellow flowers in early spring, followed by bright red fruit which attracts birds. Glossy green foliage. Mounded form, good for screening. Height to 10 feet, spread to 5 feet.	Cornus mas	
DOGWOOD, CRÈME DE MINT	Shrub that should be planted in full to part sun. Variegated foliage with white flowers in the spring. Lime green stems in the winter. Height and width 4-6'. Zone 3-7.	cornus	
DOGWOOD, HURON	Plant this shrub in sun or shade. Fast growing, adaptable, and disease resistant. White flowers in the spring followed by purple fall foliage. Globe shaped. Height and width 5-6'. Zone 3-8.	cornus racemosa	
DOGWOOD, IVORY HALO	Beautiful variegated foliage in summer with red twigs in winter. Foliage has fine texture. Drought resistant. Compact, round, dense form. Full sun. Height and spread 4 feet.	Cornus alba "Ivory Halo"	
DOGWOOD, NEON BURST	Hardy shrub that should be planted in full to part sun. Bright yellow foliage on stunning red stems. Likes well drained soil. Creamy white flowers in spring. Fall color is orange, red and purple. Height 4-5'. Width 4-5'. Zone 2-7.	Cornus alba	
DOGWOOD, PAGODA TREE	Has unique horizontal branching habit which appears to be tiered. Makes small tree or shrub, height and spread about 20 feet at maturity. Pale yellow flowers in the spring, followed by fruit that matures to bluish black. Foliage turns	Cornus alternifolia	
DOGWOOD, PUCKER UP	Shrub that should be planted in full to part sun. Rounded compact form with red stems. Green puckered foliage that turns purple and red in the fall. White flowers in the spring. Height 3-4'. Width 3-4'. Zone 3-7.	cornus stolonifera	
DOGWOOD, RED TWIGGED BAILEY	Large shrub that should be planted in full sun. Green foliage with white flowers in the spring. Bright red stems in the winter. Vigorous grower. Height and width 8-10'. Zone 3-8.	cornus	
DRAGONS HEAD, CRYSTAL PEAKS WHITE	Perennial that should be planted in full to part sun. Native plant that likes wet soils. White flower spikes July through frost attract butterflies. Zone 2-9. Height and width 18".	Physostgia	

ELM, ACCOLADE	Large native tree that should be planted in full to part sun. Graceful arching branches. Disease resistant. Yellow fall color	ulmus davidiana	
ELM, DISCOVERY	Shade tree that should be planted in full to part sun. Fast growing with a vase shaped top. Dark green foliage turns yellow in the fall. Disease resistant. Height 40'. Width 40'. Zone 3-7.	ulmus	
ELM, GREENSTONE	Large native shade tree that should be planted in full to part sun. Disease resistant. Green foliage turns yellow in the fall. Strong upright branching. Height 60'. Width 40'. Zone 4.	ulmus davidiana	
ELM, JEFFERSON	Shade tree that should be planted in full to part sun. Fast growing with a vase shaped top. Dark green foliage that turns yellow in the fall. Disease resistant. Height 70'. Width 50'. Zone 4.	ulmus americana	
ELM, NEW HARMONY	Large shade tree that should be planted in full sun. Upright form. Drought and salt tolerant. Green foliage turns yellow in the fall. Height 70'. Width 50'. Zone 4-7.	ulmus americana	
ELM, NEW HORIZON	Upright oval form. Large dark green leaves in the summer that turn rusty red in the fall. Disease resistant. Height 40' Spread 25' Zone 4	ulmus japonica x pumila	
ELM, PIONEER	Shade tree that is fast growing with a rounded top. Large, dark green leaves in the summer followed by yellow fall color. Disease resistant. Height 50-60'. Width 50-60'. Zone 4.	ulmus	
ELM, PRINCETON	Large shade tree that is disease resistant. Fast growing with an upright form. Dark glossy green leaf's in the summer turn yellow in the fall. Height 60-80'. Width 46-60'. Zone 4-9.	Ulmus americana	
ELM, TRIUMPH	Native shade tree that should be planted in full sun. Fast grower. Green foliage turns yellow in the fall. Symmetrical growth habit. Height 50'. Width 35'. Zone 4-7.	ulmus x	
ELM, VALLEY FORGE	Native fast growing shade tree. Disease resistant. Green foliage that turns yellow in the fall. Height and width 60'. Zone 4-9.	ulmus americana	

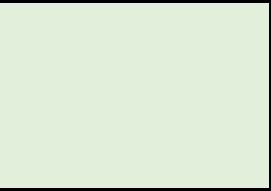

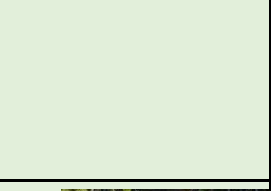

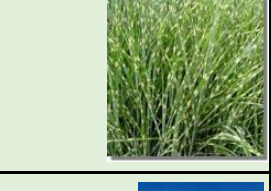

EUONYMUS, GOLDSPLASH	Low mounding plant that takes full sun or part shade. Very showy with thick, round leaves. Foliage is green with yellow margins. Height 3'. Spread 4'.	Fortunei roemertwo	
EUONYMUS, MOONSHADOW	Fast growing shrub that takes full sun to light shade. Mounding ground cover that has yellow leaves with a bright green edge. Height 3'. Spread 5'.	Euonymus fortunei	
EUONYMUS, WHITE ALBUM	Shrub that should be planted in full sun or light shade. Fast growing with cream colored leaves that have a green center. Height 1.5-2'. Width 1.5-2'. Zone 5-8.	euonymus fortunei	
FERN, GHOST	Perennial that should be planted in full to mostly shade. Prefers moist soils. Fast growing with gray-green foliage. Height 2-3'. Width 2-3'. Zone 4-8.	athyrium	
FERN, GODZILLA	Perennial that should be planted in full shade. Rabbit resistant. Giant form of the Painted Fern. Silvery with green veins. Height and width 3-4'. Zone 3-8.	athyrium	
FERN, MAIDENHAIR	Perennial that should be planted in full to part shade. Needs moist soil. Green foliage on black stems. Height 2'. Width 2'. Zone 3-8.	adiantum pedatum	
FIR, CONCOLOR	Evergreen- full sun, needs moist well drained soils. Pyramidal form. Needles are light green to soft blue. Height 40-60' Spread 30' Zone 4-7	abies concolor	
FOAM FLOWER, EYE SPY	Perennial that should be planted full to part shade. Deep yellow foliage with red centers. Pink flowers in the spring. Height 10". Width 20". Zone 4-8.	heucherella	
FOAM FLOWER, GOLD ZEBRA	Perennial that should be planted in part sun. Cut leaf foliage has red centers with yellow margins. Height 12". Width 15". Zone 4-9.	Heucherella	
FOAM FLOWER, PUMPKIN SPICE	Perennial that can be planted in filtered sun. Lobed 4" mahogany leaf's have a dark center. Vigorous with a white flower stalk. Height 8-10". Width 18-22". Zone 4-9.	Heucherella	

FOAM FLOWER, SOLAR ECLIPSE	Perennial that should be planted in full to part shade. Vigorous grower with chocolate colored foliage that is outlined in florescent green. White flowers in the spring. Height 10". Width 18". Zone 4-9.	heucherella	
FORSYTHIA, GOLD TIDE	Plant in full sun. Dwarf form. Lemon yellow flowers in early spring. Height 2'. Width 4'. Zone 4-8.	forsythia	
FORSYTHIA, SHOWOFF SUGAR BABY	Plant in full to part sun. Upright form with a profusion of bright yellow blooms in early spring. Height 5'. Width 5'. Zone 4-8.	forsythia	
FRINGE TREE, WHITE	Small native tree or shrub. White flower clusters with dark blue fruit in the summer. Part sun. Height and width 15-30'. Zone 3-9.	chionanthus virg.	
GAILLARDIA, ARIZONA SUN	Perennial. Compact plant that takes full sun. Tolerant of drought and heat. Bears 3" fiery red flowers with a vivid yellow edge. Blooms July-frost. Height- 1'. Spread 2'.	Gaillardia	
GERANIUM, ROZANNE	Perennial. Low mounding form with lightly marbled green foliage that takes part sun. Violet flowers appear early spring through fall. Height 20". Spread 24".	Geranium	
GINKGO, AUTUMN GOLD	Slow growing tree- broad pyramidal and symmetrical formed tree. Medium green foliage in the summer turning golden in the fall. Height 40-60'. Spread 30-40'.	Ginkgo biloba-maidenhair tree	
GINKGO, JADE BUTTERFLY	Small ornamental tree. Seedless and slow growing. Green foliage turns yellow in the fall. Height 10'. Width 6'. Zone 4-8.	Ginkgo biloba-maidenhair tree	
GINKGO, PRESIDENTIAL GOLD	Native shade tree. Seedless. Full branching. Green foliage that turns gold in the fall. Height and width 40-50'. Zone 4.	Ginkgo biloba-maidenhair tree	
GINKGO, PRINCETON SENTRY	Native shade tree. Seedless. Narrow form. Green foliage that turns yellow in the fall. Height 40'. Width 20'. Zone 3-9.	Ginkgo biloba-maidenhair tree	

GOLDEN RAINTREE	Smaller sized tree that should be planted in full sun. Blue green foliage turns yellow in the fall. Long fragrant yellow flower panicles are followed by paper-like seed pods. Height 20-30'. Width 25-35'. Zone 5.	Koelreuteria paniculata	
GRASS, ALL GOLD	Shade loving grass. Gold foliage. Height and width 18". Zone 4-9.	hakenochloa macrocarpa	
GRASS, APACHE ROSE SWITCH	Perennial grass. Plant in full sun. Grey-green foliage hold up rose colored seed heads late in summer. Height 4'. Width 2'. Zone 4-9.	panicum variegatum	
GRASS, AVALANCHE FEATHER REED	Perennial- full to part sun, drought tolerant. Deep green foliage with white stripe down the center. Silvery gold plumes appear in early summer. Height 3-4' Spread 2-3'	calamagrostis acutiflora	
GRASS, BIG BLUESTEM	Perennial. Plant in full/partial sun. Native Iowa prairie grass. Fast growing clumping form. Light blue, narrow foliage on upright stems with silver flower plumes in fall. Height 4-8'. Width 4-5'. Zone 4-9	andropogon gerardii	
GRASS, BIG BLUESTEM BLACKHAWKS	Perennial. Plant in full sun. Native Iowa prairie grass. Fast growing clumping form. Dark purple blue, narrow foliage on upright stems with silver flower plumes in fall. Height 5'. Width 3'. Zone 4-9	andropogon gerardii	
GRASS, BLUE FOUNTAIN SWITCH	Perennial that should be planted full sun. Blue shades and upright form. Durable. Height 7'. Width 5-6'. Zone 4-9.	Panicum virgatum	
GRASS, BOLDER BLUE FESQUE	Perennial grass that is metallic blue in color. Fast growing and should be planted in full sun. Zone 4-9. Height and width 8".	Festuca galuca	
GRASS, CHEYENNE SKY SWITCH	Perennial grass. Plant in full sun- deer resistant. Foliage turns red early in summer. Height and width 2-3'. Zone 4-7.	panicum virgatum	
GRASS, EL DORADO	Perennial grass that should be planted in full to part sun. Columnar growth habit. Green foliage with a white stripe down the center. Height 4-5'. Width 2-2.5'. Zone 4-9.	Calamagrostis acutiflora	

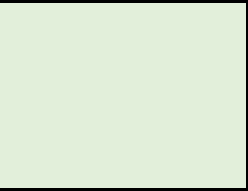

GRASS, FIRE DRAGON	Perennial grass that should be planted in full sun. Red fall color with silvery plumes in the fall. Height 6-7'. Width 3'. Zone 4-9.	miscanthus sinsensis	
GRASS, FLAME AUTUMN RED	Fast growing grass that like s well drained soils. Green foliage turns to reddish purple late in the summer. Silky, silver-white flower plumes. Hardy and deer resistant. Height 3-4'. Flower plumes to 5'. Spread 2'. Zone 4-8.	Miscanthus sinsensis purpurasce ns	
GRASS, GOLDEN BOWLES	Perennial grass that should be planted in part shade. Tolerates boggy soils. Golden foliage. Height and width 2'. Zone 5-8.	carex elata	
GRASS, GOLDEN SUNSET	Native prairie grass. Very vertical form. Yellow fall color with wheat like seed heads. Height 5-6'. Width 2-3'. Zone 3-9.	sorghastru m nutans	
GRASS, HAKONE	Perennial. Plant in partial sun/shade. Clumping form with golden yellow/white striped foliage. Height 18". Width 18" Zone 4-9	Hakonechlo a aureola	
GRASS, HAMELN DWARF FOUNTAIN	Fast growing, clumping form grass that should be planted in full sun. Fluffy white flower plumes that bloom in late summer. Green foliage turns to golden in the fall. Height 2-3'. Spread 1-2'. Zones 4-9.	Pennisetum alopecuroid es	
GRASS, HEAVY METAL	Blue switch grass that should be planted in full sun. Upright form. Height and width 5'. Zone 4-9.	Panimcum virgatum	
GRASS, KARL FOERSTER FEATHER REED	Perennial grass. Plant in full to part sun. Columnar form with tan flower spikes in late summer. Fast growing. Height 4'. Width 2'. Zone 4-9.	Calamagros tis acutiflora	
GRASS, KARL FOERSTER FEATHER REED LIGHTNING STRIKE	Perennial grass. Plant in full to part sun. Columnar form with tan flower spikes in late summer. Variegated for of Karl Foerster. Fast growing. Height 4'. Width 2'. Zone 4-9.	Calamagros tis acutiflora	
GRASS, KOREAN FEATHER REED	Perennial grass. Plant in full to part sun. White and pink flower spikes in late summer. Fast growing. Height and width 2-3'. Zone 4-9.	calamagros tis brachytrich a	

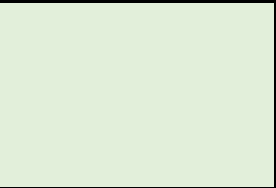

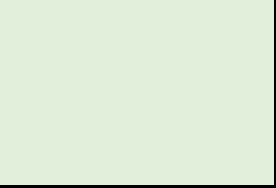

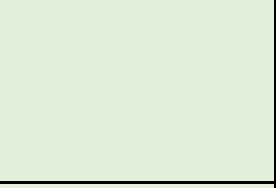

GRASS, LITTLE BLUESTEM	Fast growing grass that takes full sun and has a clumping form. Light blue, narrow foliage is held on upright stems. Fine textured flower plumes to 5'. Coppery orange fall color. Height 3'. Spread 2-3'.	Schizachryium scoparium	
GRASS, LITTLE BLUESTEM CHAMELION	Perennial grass that should be planted in full sun. Green foliage edged with pink. Height and width 18-24". Zone 3-9.	Schizachryium scoparium	
GRASS, LITTLE BLUESTEM PARADISE	Native perennial that should be planted in full sun. Fast growing with a clumping form. Silvery blue stems turn wine-purple in the fall. Height 3'. Width 2-3'. Zone 3-9.	schizachryium scoparium	
GRASS, LITTLE BLUESTEM PRAIRIE BLUES	Native perennial grass that should be planted in full sun. Blue foliage. Height 1.5'. Width 3'. Zone 3-9.	Schizachryium scoparium	
GRASS, LITTLE BLUESTEM STANDING OVATION	Native perennial grass that should be planted in full sun. Blue purple foliage. Upright form. Height 3-4'. Width 2'. Zone 3-8.	Schizachryium scoparium	
GRASS, LITTLE BLUESTEM TWILIGHT	Native perennial grass that should be planted in full sun. Silvery purple hue cast over blue foliage. Height 4'. Width 2'. Zone 3-9.	Schizachryium scoparium	
GRASS, MAIDEN	Moderate growing grass that takes full sun. The silvery-green blades turn gold in the fall. Has silvery-white flower plumes in the summer. Height 6-8'. Spread 3-5'.	Miscanthus sinensis gracillimus	
GRASS, MAIDEN HURON SUNRISE	Perennial grass. Plant in full to part sun. Fast growing green foliage with silver stripe. Lots of burgundy plumes in the fall. Height 6'. Width 3-5'. Zone 4-9.	miscanthus sinensis	
GRASS, NIAGRA FALLS	Perennial grass that should be planted in full sun. Blue switch grass with wispy seed pods in the fall. Height and width 4'. Zone 4-9.	panicum virgatum	
GRASS, NORTHWIND SWITCH	Perennial. Plant in full sun. Sturdy, upright steel-blue stems. Drought tolerant. Height 6'. Width 2-3'. Zone 4-9	panicum virgatum	

GRASS, OCTOBERFEST	Perennial grass. Green foliage turning purple and red in the fall. Big white flower plumes late season. Height 6-7'. Width 3-4'. Zone 5-9.	<i>Miscanthus sinensis</i>	
GRASS, OVERDAM FEATHER REED	Full sun grass that tolerates wet soils. Reddish-brown feathery flower spikes turn golden in the fall. Height 4-6'. Spread 2-3'	<i>Calamagrostis acutiflora</i>	
GRASS, PORCUPINE	Green foliage with bright gold horizontal bands. Takes full sun. Reddish-bronze flower plumes are present in the summer. Height 8'. Spread 3'.	<i>Miscanthus sinensis strictus</i>	
GRASS, PRARIIE DROPSEED	Native perennial grass. Prefers sandy soil. Tufted mounds of green grass turns gold in the fall. Height and width 2-3'. Zone 3-8.	<i>Sporobolus heterolepis</i>	
GRASS, PRAIRIE DOG	Native switch grass. Plant in full sun. Upright blue-green grass with purple seed heads. Height and width 4-5'. Zone 5-9.	<i>Panicum variegatum</i>	
GRASS, RAVEN POMPAS	Perennial. Plant in full sun. Fast growing upright clumps. Long silver flower plumes in fall. Height 8-10'. Width 4-6'. Zone 4-10.	<i>Erianthus ravennae</i>	
GRASS, SHENANDOAH SWITCH	Fast growing grass that takes full to part sun. True green foliage turns to burgundy in the fall. The late summer flower plumes have a rose tint to them. Height 4'. Spread 2-3'.	<i>Panicum Virgatum</i>	
GRASS, STRAWBERRY RIBBON	Perennial. Plant in full to partial sun. Fast growing white striped foliage with pink tinge. Likes wet soil. Height 3'. Width 2-3'. Zone 3-9	<i>Phalaris arundinacea</i>	
GRASS, ZEBRA	Perennial grass. Horizontal yellow stripes with coppery pink plumes in the fall. Height and width 5-7'. Zone 5-9.	<i>Miscanthus sinensis</i>	
HACKBERRY	Native shade tree that should be planted in full sun. Fast growing. Green foliage turns yellow in the fall. Height 50-75'. Width 50'. Zone 3-8.	<i>Celtis occidentalis</i>	

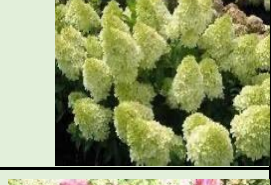

HAWKWEED, SPOTTED LEOPARD	Perennial that should be planted in full to part sun. Yellow flowers on tall stems in summer. Blue-green foliage dappled with purple. Height 6". Width 10". Zone 4-9.	hieracium maculatum	
HAWTHORN, WINTERKING	Plant in full sun. Does well in any soil type. Rounded form. White flowers in spring with glossy foliage. Purple to scarlet color in fall. Orangish red fruit and silver exfoliating bark. Height 20-30'. Width 20'. Zone 4-7	crataegus virdis (green hawthorn)	
HEMLOCK, CANADIAN	Dense pyramidal growth. Branches often droop, providing a graceful appearance. Does well in urban conditions. Can be sheared into hedge. Full sun to shade. 30-40 feet tall, 20-25 feet wide.	Tsuga canadensis	
HIBISCUS, CANDY CRUSH	Perennial that should be planted in full sun. Emerge late in spring. 8" bright pink flowers with dark center. Foliage is green. Deer resistant. Height and width 4'. Zone 4-9.		
HIBISCUS, COPPER KING	Perennial shrub that should be planted in full sun. Emerges late in the spring with dark maple like foliage. Huge pale pink flowers with red veins bloom in the summer. Height 3-4'. Width 3-4'. Zone 4-9.	hibiscus	
HIBISCUS, COPPER QUEEN	Perennial. Plant in full to part sun. 11" white and red striped flowers. Height 3'. Width 2-3'. Zone 4-8	hibiscus moscheutos	
HIBISCUS, CRANBERRY CRSUH	Perennial that should be planted in full sun. Slow to emerge in the spring. 7-8" Dark red flowers. Green foliage. Deer resistant. Height and width 4'. Zone 4-9.	hibiscus	
HIBISCUS, FIREBALL	Plant in full sun. Huge red flowers in the summer with dark purple foliage. Height 4'. Width 3'. Zone 5-9.	hibiscus	
HIBISCUS, FRENCH VANILLA	Perennial that should be planted in full sun. Slow to emerge in the spring. 8" creamy yellow flowers. Green foliage. Deer resistant. Height and width 4'. Zone 4-9.	hibiscus	
HIBISCUS, NEW OLD YELLA	Perennial shrub that should be planted in full to part sun. Emerges late with small green maple shaped foliage. Yellow flowers with a red center bloom in the summer. Height 2-3'. Width 2-3'. Zone 4-11.	hibiscus dwarf	

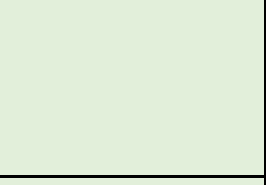

HIBISCUS, OLD YELLA	Perennial shrub that should be planted in full to part sun. Emerges late with small green maple shaped foliage. Yellow flowers with a red center bloom in the summer. Height 5'. Width 5'. Zone 4-11.	hibiscus dwarf	
HIBISCUS, PERFECT STORM	Hardy hibiscus shrub to be planted in full to part sun. Deep black-purple foliage that hold up 8" white-pink flowers. Zone 4-9. Height and width 3'.	Hibiscus dwarf	
HIBISCUS, PINK ELEPHANT	Hardy hibiscus that should be planted in full sun. Large 12" light pink flowers in summer. Zone 4-9. Height 5-6' and width 4-5'.	Hibiscus	
HIBISCUS, PLUM CRAZY	Hardy hibiscus shrub that should be planted in full sun. Large ruffled plum colored blooms mid to late summer. Zone 4-9. Height and width 4'.	hibiscus	
HIBISCUS, PURPLE HEART	Perennial shrub that should be planted in full sun. Emerges late in the spring with purple heart shaped foliage. Huge red flowers in the summer. Height 3.5'. Width 3.5'. Zone 4-10.	hibiscus	
HICKORY, SHAGBARK	Large native nut tree. Plant in full to part sun. Height and width 50-80'. Zone 4-9.	carya ovata	
HICKORY, SHELLBARK	Large native nut tree. Slow growing. Height 80'. Width 50'. Zone 3-8.	carya laciniosa	
HOLLY, BERRY MAGIC KIDS COMBO	Evergreen shrub that should be planted in full to part sun. Waxy thick green foliage with bright red berries in the winter. Height 6'. Width 3'. Zone 5-9.	ilex x meserveae	
HONEYBERRY, MAXIE	Fruiting shrub that should be planted in full to part sun. Yellow flowers in the spring are followed by edible fruit- cross between raspberry and blueberry. Very hardy, deer resistant, and native. Height 5-6'. Width 5-6'. Zone 3-7. Should	lonicera "yezberry"	
HONEYBERRY, SUGAR PIE	Fruiting shrub that should be planted in full to part sun. Yellow flowers in the spring are followed by edible fruit- cross between raspberry and blueberry. Very hardy, deer resistant, and native. Height 3-4'. Width 3-4'. Zone 3-7. Should	lonicera "yezberry"	

HONEYSUCKLE, GOLDFLAME	Deciduous vine that can be trimmed into a bush. Fragrant purple and deep pink buds open to yellow tubular flowers. Fast growing and can vine to 15'. Zone 4-9.	lonicera x heckrottii	
HONEYSUCKLE, MANDARIN	Shrubby vine that should be planted in part sun. Orange flowers in early summer. Deer resistant. Height 15'. Width 6'. Zone 4-9.	lonicera	
HORNBEAM, FRANS FONTAINE	Medium size tree that should be planted in full sun. Deep green foliage that turns yellow in the fall. Slender form that is good for screening. Height 35'. Width 15'. Zone 3-8.	carpinus betulus	
HORNEBAEM, LUCAS	Medium size tree that should be planted in full sun. Deep green foliage that turns yellow in the fall and persist through winter. Very narrow form. Height 30'. Width 10'. Zone 4-8.	carpinus betulus	
HOSTA, BROTHER STEPHAN	Perennial that should be planted in full to part shade. Yellow green foliage that is outlined in blue with white flowers. Height 2'. Width 3'. Zone 3-9.	hosta	
HOSTA, COLORED HULK	Perennial that should be planted in part shade. Slug resistant. Light green and yellow centers with a dark green edge. Lilac flower stalks. Height 15". Width 24". Zone 3-7.	hosta	
HOSTA, CURLY FRIES	Perennial that should be planted in full to part shade. Miniature Hosta with narrow wavy foliage. Chartreuse foliage with purple flower stalk. Height 6". Width 16". Zone 3-9.	Hosta	
HOSTA, DREAM WEAVER	Perennial. Plant in full to partial shade. Large leaves with blue-green edges and creamy white centers. Tubular white flowers. Height 18-24". Width 18-24". Zone 3-9	hosta	
HOSTA, GOLDEN TIARA	Perennial that should be planted in full to part shade. Prefers wet soils. Light green foliage with yellow edges. Purple flowers. Height 12". Width 12". Zone 3-8.	hosta	
HOSTA, GREAT EXPECTATIONS	Perennial. Plant in full to part shade. Creamy lime foliage with blue-green edges. White flowers in summer. Height and width 2'. Zone 3-8.	hosta	

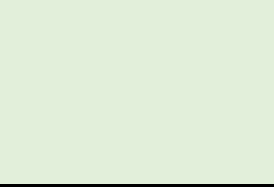

HOSTA, GUARDIAN ANGEL	Perennial that should be planted in full to part shade. Moderate growth rate and is slug resistant. Blue-green foliage with a white to yellow center. Pale purple flowers. Height 2'. Width 3'. Zone 3-9.	hosta	
HOSTA, JUNE SPIRIT	Perennial that should be planted in full to part shade. Moderate growth rate. Foliage has bright yellow centers with a deep green edge. Lavender blue flowers. Height 15". Width 24". Zone 3-9.	hosta	
HOSTA, OLIVE BAILEY	Perennial that is shade loving. Blue-green foliage with a light edge. White flowers. Height 1.5'. Width 4'. Zone 4-9.	hosta	
HOSTA, ORANGE STAR	Perennial that should be planted in full to part shade. Bright green foliage with a yellow center. Fragrant white blooms in mid summer. Height 12". Width 12". Zone 4-8.	hosta	
HOSTA, PAISLEY PRINT	Perennial that does best in shade. Wavy green foliage with a narrow yellow center. Purple flowers. Height 12". Width 24". Zone 3-9.	hosta	
HOSTA, PARADIGM	Perennial. Plant in full to part shade. Likes moist soils. Gold foliage with green edges. Lavender flowers in summer. Height and width 18-24". Zone 4-8	hosta	
HOSTA, STAINED GLASS	Perennial that likes the shade. Large golden foliage with a dark green edge. Purple flowers. Height 30". Width 48". Zone 3-9.	hosta	
HYDRANGEA, ANNABELLE	Fast growing shrub that should be planted in part shade. Dark green summer foliage turns to yellow in the fall. Large 8-10" pure white flowers that bloom from June through frost. Height 3-5'. Spread 3-5'.	Hydrangea arborescens	
HYDRANGEA, BOBO	Plant this shrub in full to part sun. Dwarf, rounded form that has abundant creamy white flowers all summer. Height 3'. Width 4'. Zone 3-9.	hydrangea paniculata	
HYDRANGEA, CANDLABRA	Shrub that should be planted in full to part sun. Cone shaped flowers turn white to pink as they age. Height and width 4-6'. Zone 3-8.	hydrangea paniculata	

HYDRANGEA, CITY LINE MARS	Shrub that should be planted in part shade. multi colored mop-head flowers blooms spring through fall.	hydrangea macrophylla	
HYDRANGEA, ECLIPSE	Shrub that should be planted in the shade. Large cranberry blooms mid summer through fall. Foliage is very dark purple/black. Height and width 3-5'. Zone 5-9.	Hydrangea macrophylla	
HYDRANGEA, ENDLESS SUMMER	Moderate growing shrub that should be planted in shade to light sun. Mildew resistant green foliage with 8" blue mop head blooms. Flowers on old and new wood. Flower color will change to pink with different soil types. Height 3-5'.	Hydrangea macrophylla	
HYDRANGEA, FIRELIGHT	Perennial. Plant in full to part sun. Blooms pure white and fades to dark pink. Sturdy stems prevent drooping. Height 3-5'. Width 3-5'. Zone 4-8	hydrangea paniculata	
HYDRANGEA, FIRELIGHT TIDBIT	Shrub that should be planted in full to part sun. White flowers change from white to pink. Smallest pink hydrangea available. Height and width 2-3'. Zone 3-8.	hydrangea paniculata	
HYDRANGEA, INCREDIBELLE	Shrub that should be planted in part shade. Huge white blooms on strong stems. Improved "Annabelle". Flowers fade to green as they age. Height and width 4-5'. Zone 3-8.	Hydrangea arborescens	
HYDRANGEA, INVINCIBLE SUBLIME	Shrub that should be planted in part shade. Green mophead flowers over dark green foliage. Rebloomer. Height and width 3-4'. Zone 3-9.	Hydrangea arborescens	
HYDRANGEA, JETSTREAM OAKLEAF	Shrub that should be planted in full to part sun. Dense compact form. Strong stems hold up bright white flowers. Orange fall color. Height and width 5'. Zone 5-8.	hydrangea quercifolia	
HYDRANGEA, LIMELIGHT	Plant in sun to part shade. Medium green foliage with lime colored flowers that turn pink as they age. Blooms on new wood only. Height 6-8'. Spread 5-7'.	Hydrangea paniculata	
HYDRANGEA, LIMELIGHT PRIME	Shrub that should be planted in full to part sun. Blooms earlier than the original and stays a bit smaller. White flowers age to green then to pink. Height and width 4-6'. Zone 3-8.	hydrangea paniculata	

HYDRANGEA, LIMELIGHT TREE	Plant in sun to part shade. Medium green foliage with lime colored flowers that turn pink as they age. Blooms on new wood only. Height 6-8'. Spread 5-7'.	Hydrangea paniculata	
HYDRANGEA, LIMETTA	Shrub that should be planted in full to part shade. Flowers are white and fade to green held on sturdy stems. Zone 3-8. Height and width 3'.	Hydrangea arborescens	
HYDRANGEA, LITTLE HOTTIE	Shrub that should be planted in full to part sun. Compact hydrangea with white blooms. Heavy bloomer. Height and width 3-5'. Zone 3-8.	hydrangea paniculata	
HYDRANGEA, LITTLE LIME	Plant in full to part sun. Dwarf shrub is covered in lime green flowers that fade to pink. Height and width 3-4'. Zone 3-9.	hydrangea paniculata	
HYDRANGEA, LITTLE LIME PUNCH	Shrub that should be planted in full to part sun. Compact size. Blooms lime green then fades to white, pink and finally red all on the same flower. Height and width 3-5'. Zone 2-8.	hydrangea paniculata	
HYDRANGEA, LITTLE LIME TREE	Plant in full to part sun. Dwarf shrub is covered in lime green flowers that fade to pink. Height and width 3-4'. Zone 3-9.	hydrangea	
HYDRANGEA, LITTLE QUICKFIRE	Plant in full to part sun. Medium green foliage has deep pink flowers that bloom in late may. Height 3-5'. Spread 3-5'. Zone 4-8.	Hydrangea paniculata	
HYDRANGEA, LOOKOUT	Shrub that should be planted in part shade. Light pale green mop-head flowers age to pink. Blooms spring through fall. Height 3'. Width 3'. Zone 3-8.	hydrangea macrophylla a "seaside serenade"	
HYDRANGEA, MAGICAL CANDLE	Shrub that can be planted in full sun. Blooms white flowers July through frost. Height 4-5'. Width 4-5'. Zone 3-9.	Hydrangea paniculata	
HYDRANGEA, MYSTICAL FLAME	Plant in full to part sun. Medium green foliage has fiery pink blooms all summer. Height 3-4'. Spread 4-5'. Zone 3-8.	Hydrangea paniculata	

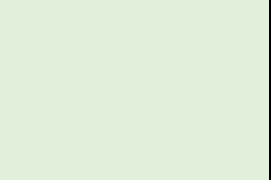

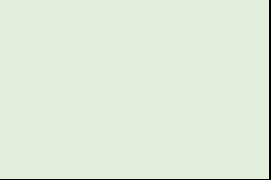

HYDRANGEA, PHANTOM TREE	Plant in full sun to part shade. Fast growing. 15" tall white flowers in August. Height 10'. Width 10'. Zone 3-8.	Hydrangea paniculata	
HYDRANGEA, PILLOW TALK	Shrub that should be planted in full to part sun. Large lime flowers age to blush pink. Height 6-8'. Width 6-8'. Zone 3-8.	Hydrangea paniculata	
HYDRANGEA, PINKY WINKY	Perennial. Plant in sun or part shade. Pink blooms with white tips. Height 6-8'. Width 6-8'. Zone 3-8	hydrangea paniculata	
HYDRANGEA, POLAR BALL	Large shrub that should be planted in part sun. Large oversized pure white flowers. Zone 3-8. Height and width 6-8'.	Hydrangea paniculata	
HYDRANGEA, PUFFER FISH	Shrub that should be planted in part sun. Heavy bloomer- flowers are white fading to light lime. Height and width 3-5'. Zone 3-8.	hydrangea paniculata	
HYDRANGEA, QUICKFIRE TREE	Plant in full to part sun. Medium green foliage has deep pink flowers that bloom in late may. Height 6-8'. Spread 6-8'.	Hydrangea paniculata	
HYDRANGEA, QUICKFIRE FAB	Shrub that should be planted in full to part sun. Early bloomer. Blooms lime green then fades to white, pink and finally red all on the same flower. Height and width 6-8'. Zone 2-8.	hydrangea paniculata	
HYDRANGEA, STRAWBERRY SHAKE	Shrub that should be planted in full to part sun. Compact habit. Blooms are white maturing to pink. Height 4-5'. Width 4'. Zone 4-8.	Hydrangea paniculata	
HYDRANGEA, STRAWBERRY VANILLA TREE	Shrub that should be planted in full to part sun. Large pink and white flowers. Blooms on new growth. Height 6'. Width 5'. Zone 3-7.	Hydrangea paniculata	
HYDRANGEA, SUMMER CRUSH	Shrub that should be planted in the shade. Compact form with raspberry red blooms. Re-bloomer. Height and width 2-3'. Zone 4-9.	hydrangea macrophylla	

HYDRANGEA, TWIST AND SHOUT	Shrub that should be planted in shade. Sturdy red stems with either pink or periwinkle blooms. Height and width 3-5'. Zone 4-9.	Hydrangea macrophylla	
HYDRANGEA, WEE WHITE	Shrub that should be planted in full to part sun. Sturdy stems hold up white mop head flowers in summer. Zone 3-9. Height and width 2'.	Hydrangea arborescens	
IRIS, BLACK KNIGHT	Perennial. Plant in full sun. Dark purple-black flowers in the summer. Height 36". Width 18". Zone 3-9.	iris	
IRIS, CEASAR'S BROTHER	Perennial that should be planted in full to part sun. Vigorous grower that likes wet soils. Dark purple flowers in late spring. Height 2.5'. Width 2.5'. Zone 4-9.	iris siberian	
IRIS, CHIDORI NO MAI	Perennial that should be planted in part sun. Japanese iris with 6" white flowers and purple edges. Mid summer bloomer. Height and width 2'. Zone 3-9.	iris	
IRIS, EDITH WOLFORD	Perennial. Plant in full sun. Yellow flowers with purple beard. Blooms in mid-spring. Height 3'. Width 2'. Zone 3-10	iris	
IRONWOOD, AMERICAN HOPHORNBEAM	Plant in full to part sun. Vase shaped. Dark green foliage in summer and turns to yellow in fall. Height 30-40'. Width 20'. Zone 4	ostrya virginiana	
IRONWOOD, AMERICAN HOPHORNBEAM AUTUMN TREASURE	Medium sized tree that should be planted in full to part sun. Narrow form. Dark green foliage turns golden yellow in the fall with a clean leaf drop in the winter. Height 40'. Width 20'. Zone 4.	ostrya virginiana	
JACOBS LADDER, BLUE PEARL	Perennial. Plant in part shade. Dark green foliage with large clusters of bright blue flowers. Height 18". Width 20". Zone 3-9	polemonium	
JACOBS LADDER, PURPLE RAIN	Perennial that should be planted in part shade. Dark purple foliage with purple-blue flowers. Blooms spring and early summer. Deer resistant and pollinator friendly. Height 24". Width 12". Zone 4.	Polemonium yezoense	

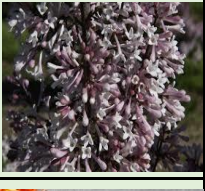

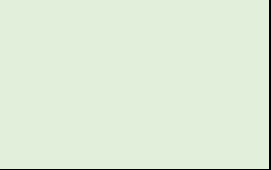

JACOBS LADDER, STAIRWAY TO HEAVEN	Perennial- part to full shade. White and green variegated foliage with a bright blue bell shaped flower in the spring. Height 2’ Spread 1.5-2’ Zone 3-9	polemoniu m	
JAPANESE PAGODA TREE	Medium sized shade tree that should be planted in full to part sun. White flowers in July-August. Prefers sandy soils. Height and width 30-40'. Zone 4-8.	styphnolobi um japonicum	
JUNIPER, ALPINE CARPET	Ground cover evergreen that should be planted in full to part sun. Soft dense foliage that is deer resistant. Green color. Does good in rocky soils. Height 8". Width 3'. Zone 3-6.	juniperus communis	
JUNIPER, ANDORA COMPACT	Evergreen that should be planted in full to part sun. Ground cover with blue-green foliage. Height 18". Width 5'. Zone 4-9.	juniperus horizontalis	
JUNIPER, BLUE ARROW	Plant in full sun- moderate growth rate with a tight columnar form. Blue-green foliage. Height 12-15’ Spread 2’ Zone 4-9	juniperus virginiana	
JUNIPER, BLUEBERRY DELIGHT	Evergreen that should be planted in full sun. Silvery blue foliage. Drought tolerant. Height 2'. Width 5'. Zone 3-8.	juniperus communis	
JUNIPER, BLUE FORREST	Plant in full to part sun. Spreading form with blue-green, upturned branches. Height 6-12" Spread 4’ Zone 3-9	juniperus sabina	
JUNIPER, BLUE STAR	Evergreen that should be planted in full sun. compact form. Does not like wet soils. Sparkling blue foliage is deer resistant. Height 2'. Width 3'. Zone 4-8	juniperus squmata	
JUNIPER, CALGARY CARPET	Ground cover evergreen. Moderate growth rate with silver-blue needles. Height 10". Width 10'. Zone 4-8.	juniperus sabina	
JUNIPER, DAUBS FROSTED	Plant in full sun. Moderate grower with golden yellow new growth. Deer resistant. Height 1-2'. Width 3-6'. Zone 4-9	juniperus chinensis	

JUNIPER, DAUBS FROSTED TREE	Plant in full sun. Grafted tree with spreading, slightly weeping branches. Moderate grower with golden yellow new growth. Deer resistant. Height 2-3'. Width 2-3'. Zone 4-9	juniperus chinensis	
JUNIPER, GREY GUARDIAN	Evergreen that has silvery-grey needles. Compact version on the Grey Owl. Plant in full sun- drought tolerant. Height 2-3'. Spread 3-5'.	Juniperus virginiana	
JUNIPER, GREY OWL	Evergreen that has silvery-grey needles. Plant in full sun- drought tolerant. Height 4-6'. Spread 6-8'.	Juniperus virginiana	
JUNIPER, HETZI POM-POM	Plant in full sun. Bright green foliage trimmed into shape. Height 15'. Width 5'. Zone 4-9	juniperus chinensis	
JUNIPER, ICEE BLUE	Plant in full sun. Great evergreen ground cover that has silver blue needles. Height 4". Spread 8'.	Juniperus horizontalis	
JUNIPER, MEDORA	Plant in full sun. Slow growing evergreen with blue-green needles. Very columnar form. Height 10'. Spread 2.5'.	Juniperus scopularum	
JUNIPER, MINT JULEP	Moderate growing evergreen with mint green foliage. Height 4'. Spread 4'.	Juniperus chinesis	
JUNIPER, MOONGLOW	Evergreen that should be planted in full sun. Silvery blue upright juniper. Deer resistant. Height 15-20'. Width 8'. Zone 3-7.	Juniperus scopulorum	
JUNIPER, SKYROCKET	Evergreen that should be planted in full sun. Very columnar with a medium growth rate. Blue-green foliage. Height 15-20'. Width 2-3'. Zone 4-9.	Juniperus scopulorum	
JUNIPER, SPARTAN SPIRAL	Plant in full sun. Rich green foliage trimmed into a spiral. Height 12-15'. Width 3-3.5'. Zone 4-9	juniperus chinensis	

JUNIPER, TAYLOR	Evergreen that should be planted in full to part sun. Green foliage. Columnar tree. Height 30' Width 3'. Zone 3-9	juniperus virginiana	
JUNIPER, WICHITA BLUE	Broadly pyramidal evergreen with silvery blue foliage year round. Full sun. Height 15'. Spread 6'.	Juniperus scopulorum	
JUNIPER, YOUNGSTOWN	Evergreen that should be planted in full sun. Ground cover with bright green foliage that turns purple in the winter. Height 1'. Width 6'. Zone 3-9.	juniperus horizontalis	
KATSURA TREE	Upright and pyramidal tree with heart shaped bluish-green leaves. Fall foliage is yellow to orange. Tree has a slight cinnamon scent. Height 40'. Spread 40'.	Cercidiphyllum japonicum	
KENTUCKY COFFEE TREE	Plant in full sun. Large oval form. Green leaves in the summer turning yellow in fall. Native to Iowa. Height 60-75'. Width 40-50'. Zone 3-8	gymnocladus dioica	
KENTUCKY COFFEE TREE ESPRESSO	Plant in full sun. Large oval form. Green leaves in the summer turning yellow in fall. Native to Iowa. Seedless variety and slight more compact than the original. Height 50'. Width 35'. Zone 3-8	gymnocladus dioica	
LARCH, AMERICAN	Shade tree that is fast growing. Resembles an evergreen, but the needles turn yellow in the fall before dropping. Shade tolerant. Height 60'. Width 20'. Zone 2-5.	larix laricina	
LAVENDER, MUNSTEAD	Perennial. Fragrant light purple flower spikes. English lavender that blooms in late spring. Height 1-2'. Width 2-3'. Zone 5-9.	lavandula angustifolia	
LAVENDER, PHENOMENAL	Perennial that should be planted in full sun. Attracts hummingbirds and butterflies. Blooms blue purple flowers in mid summer. Deer resistant. Height and width 2-3'. Zone 5-9.	lavandula x intermedia	
LAVENDER, SENSATIONAL	Perennial that should be planted in full to part sun. Silvery blue foliage with large purple blooms in mid summer. Height and width 2-3'. Zone 5-9.	lavandula x intermedia	

LENTON ROSE, ROME IN RED	Perennial that should be planted in the shade. 3-4" maroon red flowers bloom for 6 weeks or longer in very early spring. Deer and rabbit resistant. Height 18". Width 18". Zone 4-9.	helleborous	
LIATRIS, KOBOLD BLUE	Perennial- full sun, drought tolerant. Spikes of lilac-mauve in early spring. Height 1.5-2' Spread 1.5' Zone 3-9	liatris spicata	
LIATRIS, WHITE	Perennial. Plant in full sun. Drought tolerant. Spikes of white in early summer. Height 1.5-3'. Width 1-1.5'. Zone 3-9	liatris spicata	
LILAC, BABY KIM	Small shrub that should be planted in full sun. Compact version of Miss Kim. Lots of fragrant purple flowers early summer. Height and width 2-3. Zone 3-8.	Syringa patula	
LILAC, BLOOMERANG	Plant in full sun. Lavender blooms in spring through summer, re-bloomer. Mounding form. Height 4-5' Spread 4-5' Zone 3-7	syringa x	
LILAC, BLOOMERANG PURPLE TREE	Plant in full sun. Lavender blooms in spring through summer, re-bloomer. Round form. Height 8' Spread 4-5' Zone 3-7	syringa x	
LILAC, CHINA SNOW	Ornamental tree that should be planted in full to part sun. Large creamy white flowers in spring. Nice exfoliating bark. Upright, spreading form. Height and width 20'. Zone 5-8.	Syringa pekinensis	
LILAC, CONGO	Shrub that should be planted in full sun. Red buds open to deep purple flowers in late spring. Height 8-10'. Width 6-8'. Zone 3-8.	syringa vulgaris	
LILAC, DONALD WYMAN	Shrub that should be planted in full to part sun. Lush green foliage with a pink purple flower. Late bloomer. Height 8-10'. Width 6'. Zone 2-7.	syringa prestoniae	 
LILAC, EDWARD GARDNER	Shrub that should be planted in full sun. Oval shaped. Blush toned purple flowers bloom in late spring. Height and width 8-10'. Zone 3-8.	syringa vulgaris	

LILAC, GOLDEN ECLIPSE	Small ornamental tree that should be planted in full to part sun. Variegated green and yellow foliage and fragrant yellow flowers in the spring. Height 20'. Width 15'. Zone 3.	Syringa reticulata	
LILAC, GREAT WALL	Small ornamental tree that should be planted in full to part sun. Dark, glossy green foliage turns yellow in fall. Large white flowers in spring that are fragrant. Exfoliating cherry colored bark. Height 20-25'. Width 12-15'. Zone 3.	Syringa pekinensis	
LILAC, IVORY SILK TREE	Large creamy white flower clusters in midsummer. Cherry-like bark. Deep green foliage. Drought resistant. Compact, round dense form. Full sun. Height to 15 feet, spread to 10 feet. Available in tree, shrub, or clump form.	Syringa reticulata "Ivory Silk"	
LILAC, JAMES MCFARLAND	Plant this shrub in full sun. Fast growing upright form with true pink flowers in the spring. Height 8'. Width 6'. Zone 4-7.	syringa x presoniae	
LILAC, JAPANESE TREE	Spreading small tree with a fragrant large creamy white flower in spring. Height 25'. Spread 25'.	Syringa reticulata	
LILAC, LITTLE DARLING	Small compact shrub that should be planted in full sun. Lilac purple flowers that re-bloom late summer. Height and width 4'. Zone 4-8.	syringa x	
LILAC, MISS KIM	Purple buds open to single, fragrant pale lilac flowers. Blooms later than other lilacs. Dark green foliage turns burgundy in fall. Full sun, well drained soil. Height and spread 3-5 feet.	Syringa patula "Miss Kim"	
LILAC, MISS KIM TREE	Plant in full sun. Beautiful, small ornamental tree with dark glossy green foliage. Fragrant lilac-pink flowers in the spring. Height 4-8'. Spread 3-6'.	Syringa patula	
LILAC, OLD FASHIONED	Large shrub with heart shaped green foliage. Fragrant purple blooms in the summer. Fall color is yellow, orange and purple. Height and width 15'. Zone 3-7	syringa vulgaris	
LILAC, PALABIN	Reddish purple buds open to fragrant lavender flowers. Compact, low spreading form with small leaves. Late bloomer. Dark red fall color. Good for informal hedges. Full sun. Height 4-5. Spread 5-6 feet.	Syringa meyeri	

LILAC, PALABIN TREE	<p>Reddish purple buds open to fragrant lavender panicles. Uniform compact form with small leaves. Late bloomer. Good for informal hedges. Full sun. Height 4-5. Spread 5-7 feet.</p>	<p>Syringa meyeri "Palibin"</p>	
LILAC, PRESIDENT GREVY	<p>Shrub that should be planted in full sun. Vigorous grower and deer resistant. Blue-purple blooms in spring. Height 10. Width 8'. Zone 3-7</p>	<p>syringa vulgaris</p>	
LILAC, ROYALTY	<p>Shrub that should be planted in full sun. Exceptional lush green foliage. Heavy dark purple blooms in late spring. Height 8'. Width 6'. Zone 3-8.</p>	<p>syringa josiflexa</p>	
LILAC, SUMMER STORM	<p>Small ornamental tree that should be planted in full sun. Upright, rounded form. Hardy. Creamy white flowers in June. Height 20'. Width 15'. Zone 4.</p>	<p>Syringa reticulata</p>	
LILAC, TINKERBELLE	<p>Plant in full sun. Compact globe form. Pink flowers with deep green foliage. Height 4-8'. Width 2-4'. Zone 3-7</p>	<p>syringa bailbelle</p>	
LILAC, VOILET UPRISING	<p>Plant in full sun. Good as an upright hedge. Lilac fragrant flowers. Height 4-6'. Width 4-5'. Zone 3.</p>	<p>Syringa patula</p>	
LILLY ASIATIC, DOUBLE YOU	<p>Perennial that should be planted in full to part sun. 4" reddish orange double blooms open in June. 20" tall. Zone 3-8.</p>	<p>lillium</p>	
LILLY ASIATIC, FESTIVE JOY	<p>Perennial that should be planted in full sun. Fast growing with large red-orange flowers. Blooms in summer. Height 30". Width 18". Zone 3-8.</p>	<p>lillium</p>	
LILLY ASIATIC, PANDA JOY	<p>Perennial that should be planted in full to part sun. Blooms are dark red fading to white around the edges. Fragrant and attract hummingbirds. Height 2'. Zone 1-9.</p>	<p>lillium</p>	
LILLY ASIATIC, SECRET JOY	<p>Perennial that should be planted in full sun. Large orange flowers with a dark center. Height 18-24". Width 9". Zone 4-7.</p>	<p>lillium</p>	

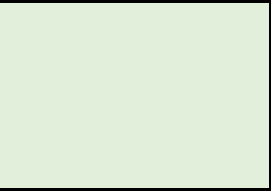

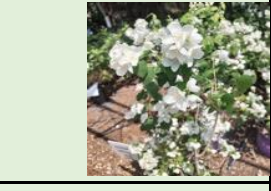

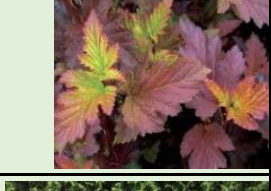

LILLY ASIATIC, TINY DIAMOND	Perennial that should be planted in full to part sun. Rose pink flower with white centers. 12" tall. Zone 3-8.	lillium	
LILLY ASIATIC, TINY NUGGET	Perennial that should be planted in full to part sun. Sunny yellow flower with speckled red centers. 18" tall. Zone 4-8.	lillium	
LINDEN, AMERICAN SENTRY	Excellent for specimen tree or for sites where height is needed but width is limited. Narrow pyramidal growth, ascending branching. Yellow fall color. Height to 60, spread to 30 feet.	Tilia americana "Boulevard"	
LINDEN, REDMOND	Large native shade tree. Uniform pyramidal form. Green foliage turns yellow in fall. Fast growing. Height 50'. Width 25'. Zone 3-8.	tilia americana	
LINDEN, STERLING SILVER	Plant in full sun. Vigorous grower. Beetle resistant. Pyramidal form. Dark green foliage turning yellow in fall. Height 40'. Width 30'. Zone 4	tilia tomentosa	
LOCUST, HALKA	Vigorous growing shade tree that has a symmetrical full crown. Bright green foliage in the summer turns yellow in the fall. Seedless. Zone 3-8. Height and width 40'.	Gleditsia triacanthos	
LOCUST, IMPERIAL	Plant in full sun. Moderate grower with an open rounded form. Bright green foliage in summer turning yellow in fall. Height 35'. Width 30'. Zone 3	gleditsia triacanthos	
LOCUST, NORTHERN ACCLAIM	A medium-large tree that is thornless, seedless, fast-growing and fairly upright in form. With age, the sturdy tree widens. Drought resistant. Develops yellow fall color. Winter hardy to Zone 3. Reaches a mature height of 35 to 45 feet.	Gleditsia triacanthos inermis "Harve"	
LOCUST, SHADEMASTER	Fast growing shade tree that has and upright vase shaped form. Medium green foliage in the summer turning to yellow in the fall. Seedless. Zone 4-7. Height 50-75' and width 25-40'.	Gleditsia triacanthos	
LOCUST, SKYLINE	Seedless, thornless, essentially fruitless. Dark green foliage turns golden yellow in fall. Stately, broad pyramidal form with tight branching. Provides light filtered shade. H = 50-60. S = 35-40.	Gleditsia traicanthos inermis "Skycole"	

LOCUST, SUNBURST	Plant in full sun. Fast, irregular shaped grower. Green foliage with yellow tips turning yellow in fall. Height 40'. Width 35'. Zone 4	gleditsia triancantho s	
MAGNOLIA, ANN	Small flowering tree or shrub. Slow growing and should be planted in full sun. 3-4" red/purple blooms that fade to white. Blooms late to avoid frost. Height 10-15'. Width 12'. Zone 4-8.	magnolia x	
MAGNOLIA, JANE	Small ornamental tree that should be planted in full to part sun. Moderate growth rate. 8-9" tulip shaped purple flowers that bloom late in the spring. Height 10-15'. Width 10'. Zone 3-9.	magnolia x soulangean a	
MAGNOLIA, LEONARD MESSEL	Plant in full sun. Needs some protection from elements. Two-tone pink and white flowers. Height 10-15'. Width 12'. Zone 5-9	magnolia x loebneri	
MAGNOLIA, MERRIL	Ornamental tree that is fast growing and should be planted in full sun. Large, white star shaped flowers bloom in spring. Height 15'. Width 15'. Zone 4-9.	magnolia x loebneri	
MAGNOLIA, ROYAL STAR	Ornamental tree that can be planted in sun or shade. Large, fragrant double white flowers in spring. Should be planted in a protected area. Height 10-15'. Width 10-12'. Zone 5-9.	magnolia stellata	
MAGNOLIA, SUSAN	Small tree or shrub. Dark pink flowers in spring. Late bloomer avoids late frosts. Plant in full to part sun. Height and width 10'. Zone 4-8.	magnolia x soulangean a	
MAPLE, ARMSTRONG	Columnar tree that should be planted in full sun. Rapid grower with bright orange-red foliage in the fall. Height 40-50. Width 15'. Zone 3-7.	Acer freemanii	
MAPLE, ARMSTRONG GOLD	Plant in full sun. Rapid growth. Columnar form. Light green leaves in summer turning bright orange/red in fall. Height 40-50'. Width 15'. Zone 3-7	acer x freemanii	
MAPLE, AUTUMN BLAZE	Green leaves turn to brilliant orange-red fall color. Hybrid of Red and Silver Maple. Nearly seedless. Upright, oval form. Rapid growth. 1997 Iowa Tree of the Year. Height to 50 feet, spread to 40 feet.	Acer x freemanii "jeffersred"	

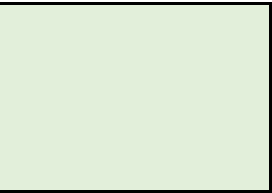

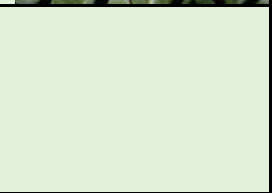

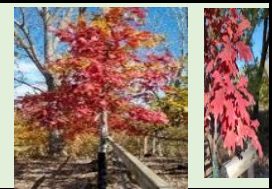

MAPLE, AUTUMN FANTASY	Hybrid of Red and Silver Maple. Nearly seedless. Green leaves turn to bright red fall color. Rapid growth. Consistently good fall color. H = 40-50. S = 40.	Acer x freemanii “Autumn Fantasy”	
MAPLE, AUTUMN FEST SUGAR	Shade tree that should be planted in full sun. Fast growing with an upright shape. Green summer foliage turns bright red early in the fall. Height 50'. Width 35'. Zone 4-9.	acer sachhrum	
MAPLE, AUTUMN FLAME	Shade tree that has a broad rounded form. Medium growth rate. Red and yellow fall foliage. Height 40-60'. Width 40-60'. Zone 4-7.	acer rubrum	
MAPLE, BAILEY COMPACT AMUR FLAME	Shrub that should be planted in full sun. Glossy green cut-leaf foliage that turns bright red in the fall. Fragrant yellow flowers in the spring. Height 7-9'. Width 8'. Zone 3-7.	acer ginalla	
MAPLE, BLOODGOOD	Plant in part sun- need protection from harsh conditions. Slow grower with a rounded form. Burgundy red foliage with a cut-leaf. Height 15-20' Spread 15' Zone 5-8	acer palmatum	
MAPLE, BOWHALL	Plant in full sun. Narrow, upright form. Orange and yellow fall color. Height 40'. Width 15'. Zone 4-8	acer rubrum	
MAPLE, BURGANDY BELLE	Plant in full to part sun. Compact uniform canopy. Fall color is orange to red then turning to burgundy. Height 35' Spread 20' Zone 5-8	acer rubrum	
MAPLE, BRANDYWINE	Medium size shade tree. Seedless variety. Oval shaped. Cross between October Glory and Autumn flame. Turns red later in fall. Height 30'. Width 30'. Zone 4-8.	acer rubrum	
MAPLE, CELEBRATION	Plant in full sun. Likes wet soil. Vigorous grower. Upright form. Orange/red color in fall. Height 40-50'. Width 20'. Zone 4-9	acer x freemanii	
MAPLE, COMMEMORATION SUGAR	Plant in full sun. Vigorous grower. Orange/red color in fall. Height 40-50'. Width 30'. Zone 4-9	acer saccharum	

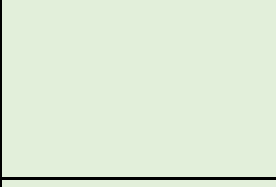

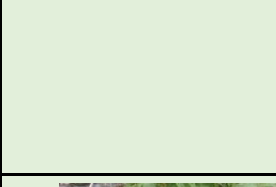

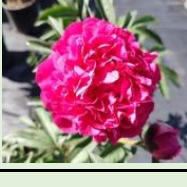

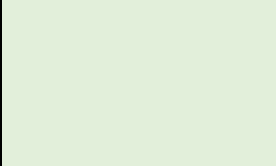

MAPLE, CRIMSON KING	Plant in full sun. Purple leaf color all summer long. Height 40-50' Spread 30' Zone 4-8	acer platanoides	
MAPLE, EMPORER 1	Ornamental tree that should be planted in part sun. Dark red cut-leaf foliage turns bright red in the fall. Should be planted in a protected area. Height 15'. Width 15'. Zone 5-8.	acer palmatum-japanese	
MAPLE, FALL FIESTA SUGAR	Sugar Maple. Bailey introduction has beautiful thick, leathery leaves of glossy green that are resistant to leaf tatter. Beautiful display of fall color in shades of yellow to red. Vigorous growth. Upright, rounded. Height 50-75. Spread	Acer saccharum "Bailsta"	
MAPLE, FIREFALL	Fast growing shade tree that should be planted in full sun. Upright oval shape. Turns bright red in fall. Seedless. Height 40-50'. Width 30-35'. Zone 3-7.	acer freemanii	
MAPLE, FLASHFIRE SUGAR	Shade tree that has a rounded form. Glossy, leathery green foliage in the summer turns brilliant red in the fall. Height 45'. Width 40'. Zone 4.	acer sachhrum	
MAPLE, GREEN COLUMN	Shade tree with an upright compact form. Light green foliage that turns yellow, apricot, and orange in the fall. Height 50'. Width 20'. Zone 4.	acer nigrum	
MAPLE, GREEN MOUNTAIN SUGAR	Thick, waxy, dark green leaves turn to orange and scarlet in fall. Vigorous, upright, oval form. Excellent heat tolerance. Height to 75 feet, spread to 40 feet.	Acer saccharum "Green Mountain"	
MAPLE, LEGACY SUGAR	Fast growing sugar maple with an upright oval form. Foliage turns shades of reds, oranges, and yellows in the fall. Height 50-60'. Width 30-35'. Zone 4-8.	acer saccharum	
MAPLE, OCTOBER GLORY	Hardy Red Maple. Green foliage turns to brilliant crimson red fall color. Colors change depending on weather conditions. Long display of fall color. Dense, rounded form. Height 50-60. Spread 35-40 feet.	Acer rubrum "October Glory"	
MAPLE, PACIFIC SUNSET	Plant in full sun. Upright spreading form. Yellow, orange, red colors in fall. Height 30'. Width 25'. Zone 4	acer truncatum x platanoides	

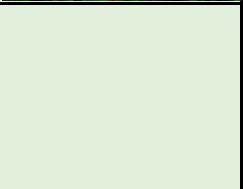

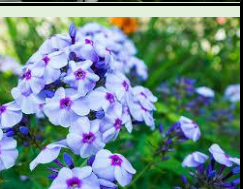

MAPLE, PRINCETON GOLD	Medium sized shade tree that should be planted in full sun. Bright yellow foliage all summer. Height 45'. Width 40'. Zone 4-8.	Acer platanoides norway	
MAPLE, RED SUNSET	Red Maple. Bright green textured foliage turns brilliant orange-red in fall. Retains fall color longer than other maples. Rapid growing, matures to rounded form. Iowa Tree of the Year in 2000. Good choice for street and lawn usage.	Acer rubrum "Franksred"	
MAPLE, REDPOINTE	Plant in full sun. Fast growing. Broadly pyramidal and densely branched. Deep red fall color. Height 45'. Width 30'. Zone 4	acer rubrum	
MAPLE, ROYAL RED	Very slow growing tree that has maroon red foliage all summer. Small form. Height 30-40'. Spread 30'.	Acer platanoides norway	
MAPLE, RUBY SUNSET	Small tree that is rounded in form. Dark glossy green foliage turns bright red in the fall. Height 25'. Width 20'. Zone 4.	acer truncatum x platanoides	
MAPLE, SIENNA GLEN	Small leaves and fine branching give this tree a more delicate appearance. Hybrid of red and silver maple. Consistent fall color ranging from orange-red to burgundy. Pyramidal form, height to 50 feet, spread to 30 feet.	Acer freemanii "Sienna"	
MAPLE, STATE STREET	Plant in full to part sun. Golden yellow fall color- nice rounded tree. Height 45' Spread 30' Zone 4-7	acer miyabei morton	
MAPLE, SUN VALLEY	Medium sized shade tree with an oval top. Seedless red flowers appear in spring. Green foliage turns yellow, orange and red in the fall. Height 40'. Width 30'. Zone 4-7.	acer rubrum	
MAPLE, URBAN SUNSET	Upright and narrow. Fast growing and problem free. Mostly seedless. Dark green foliage turns deep red in the fall. Height 35'. Width 20'. Zone 4.	acer truncatum x platanoides	
MAPLE, VARIEGATED NORWAY	Medium sized tree that should be planted in full sun. Dense broad crown. Light green foliage with white edges. Height 40'. Width 30'. Zone 4-8.	acer platanoides	

MOCKORANGE, ILLUMINATI ARCH	Shrub that should be planted in full to part sun. Deer resistant. Arching habit. Dark green foliage covered in pure white blooms in spring. Height and width 44. Zone 4-7.	Philadelphus	
MOCKORANGE, ILLUMINATI TOWER	Shrub that should be planted in full to part sun. Narrow upright form. Drought tolerant. Heavy bloomer with white flowers in early summer. Height 6'. Width 3'. Zone 4-7.	Philadelphus	
MOCKORANGE, SNOWDWARF	Shrub that should be planted in full sun. Well branched with 1.5" fragrant white flowers in the summer. Height 2-3'. /Width 2-3'. Zone 4-7.	Philadelphus	
MOCKORANGE, SNOW WHITE	Rounded shrub that should be planted in full sun. Fragrant pure white flowers bloom twice. Yellow to purple fall color. Height and width 5'. Zone 4-8.	Philadelphus	
MULBERRY, WEEPING	Plant in full sun. Emerald green foliage on cascading branches- umbrella shaped. Height 6-8' Spread 4-6'	morus alba	
NINEBARK, AMBER JUBILEE	Shrub that should be planted in full to part sun. Foliage is green, yellow and red all season long. Blooms white flowers in the spring. Peeling bark for winter interest. Height 5-6'. Width 4-5'. Zone 3-7.	physocarpus opulifolus	
NINEBARK, ANGEL	Plant in full sun. New growth comes out orange and turns burgundy red. Red stems and white flowers in the spring. Height 4-5'. Width 4-5'. Zone 4-8.	Physocarpus opulifolius	
NINEBARK, CENTERGLOW	Plant in full to part sun. Upright rounded form. New foliage emerges yellow-green then changing to red. White flower in the spring. Height 8' Spread 8' Zone 3-7	physocarpus opulifolus	
NINEBARK, DIABOLO	Beautiful reddish-purple foliage displayed on long arching canes forms a rounded mound. Blooms in the spring with creamy white flowers. Can grow to 8-10 feet tall and wide, but can be controlled by cutting branches back to the	Physocarpus opulifolius "Monlo"	
NINEBARK, GINGER WINE	Adaptable native shrub that should be planted in full sun. Burgundy foliage with exfoliating bark. Pink flowers in spring. Height 5-6'. Width 5-6'. Zone 3-7.	Physocarpus opulifolius	

NINEBARK, LITTLE DEVIL	Shrub that should be planted in full sun. Upright spreading form. Fine textured dark purple foliage with white blooms. Height and width 3-5'. Zone 3-7.	Physocarpus opulifolius	
NINEBARK, LITTLE JOKER	Shrub that should be planted in full sun. Deep burgundy foliage with light pink flowers that bloom June-July. Height and width 3'. Zone 4-8.	Physocarpus opulifolius	
NINEBARK, SUMMERWINE	Shrub that should be planted in full sun. Wine purple foliage with small white flowers in the spring. Height and width 5-6'. Zone 3-7.	Physocarpus opulifolius	
NINEBARK, TINY WINE	Plant in full sun. Upright, rounded form. Purple/red foliage all summer long. White/pink flowers in June. Height 3-4'. Width 3-4'. Zone 3.7	physocarpus opulifolius	
OAK, BUR	Fast growing tolerant tree. Broadly oval irregular shape with big acorns. Summer foliage is glossy green on top and whitish on bottom. Turns yellow-brown in the fall. Height 55'. Spread 45'.	Quercus macrocarpa	
OAK, CHINKAPIN	One of the more alkaline tolerant oaks. Has large sharp-toothed leaves that are dark green above with white cast to the underside. Yellow-orange fall color. Ash-gray bark. Native to Midwest. H= 40-60, S = 50.	Quercus muehlenbergii	
OAK, CRIMSON SPIRE	Narrow tree that should be planted in full sun. Cross between English and white oak. Mildew resistant. Red fall color. Height 45'. Width 15'. Zone 4-8.	quercus bimundorum	
OAK, GREEN PILLAR	Plant in full sun. Narrow, upright columnar form. Dark green leaves turning deep red in fall. Height 45'. Width 15'. Zone 4-8	querus palustris Pringreen	
OAK, HERITAGE	Plant in full sun. Broadly pyramidal becoming oval. Cross between English and Bur Oak. Dark green foliage is mildew resistant. Yellow/brown fall color. Height 60-80'. Width 40-50'. Zone 4-8	quercus x macdanielli	
OAK, KINDRED SPIRIT	Shade tree with a very narrow habit. Fast growing with green foliage turning to red in the fall. Height 35'. Width 6'. Zone 3.	quercus robur fastigiata x bicolor	

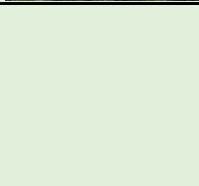

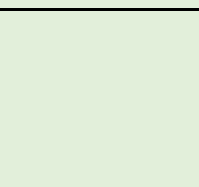

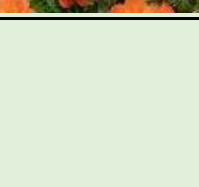

OAK, NORHTERN PIN	Shade tree that should be planted in full sun. Fast growing with an open, drooping form. Red fall foliage. Will not tolerate clay soils. Height 40-60'. Width 40'. Zone 2-11.	quercus ellipsoidalis	
OAK, NORTHERN RED	New leaves and leaf stalks are deep red in the spring. Large, deeply lobed leaves turn dark red in fall and hang on through winter. Fastest growing of the oaks. Transplants well. 1999 Iowa Tree of the Year.	Quercus rubra	
OAK, PIN	Plant in full sun, fast growing pyramidal form. Does not tolerate clay soils. Fall color is red. Height 40-60' Spread 40' Zone 4-8	quercus palustris	
OAK, PRAIRIE STATURE	Native shade tree that should be planted in full to part sun. Cold hardy cross between English and white oak. Yellow to red fall color. Height 50'. Width 40'. Zone 3-8.	quercus bimundoru m	
OAK, SCARLETT	Large shade tree that is drought tolerant and fast growing. Rounded form. Green foliage turns red in the fall. Height 50' and width 40'. Zone 4-8.	Quercus coccinea	
OAK, SHINGLE	Native shade tree that should be planted in full sun. Oval form and a medium growth rate. Height and width 50-60'. Zone 4-8.	Quercus imbrica	
OAK, SHUMMARD	Native shade tree that should be planted in full sun. Medium growth rate and red fall color. Height 40-60'. Width 40-60'. Zone 5-9.	Quercus sumardii	
OAK, STREET SPIRE	Columnar shade tree that should be planted in full sun. Red fall color with a clean leaf drop in the fall. Height 45'. Width 15'. Zone 4-8.	quercus bimundoru m	
OAK, SWAMP WHITE	Coarse, dark green leaves have white undersides. Foliage turns yellowish red in the fall. Distinct flaky gray-brown bark. Bears acorns on 2-4" stalk. Thrives in wet areas or upland soils. Height to 60 feet, spread to 50 feet at maturity.	Quercus bicolor	
OAK, WHITE	Large shade tree that should be planted in full to part sun. Green foliage turns to yellow, brown, and red in the fall. Height 50-80'. Width 50'. Zone 3-9.	Quercus alba	

PEAR, CHANTICLEER	Plant in full sun. Tight upright form bears white spring flowers. Fall color is red, orange, yellow, and purple. Height 20-30' Spread 12-15' Zone 4-8	pyrus calleryana	
PEAR, CLEVELAND SELECT	Upright, conical tree that flowers white in the spring. Medium growth rate and should be planted in full sun. Green foliage turns to red or purple-red and then to orange in the fall-outstanding. Height 30-40'. Spread 15'.	Pyrus calleryana	
PENSTEMON, BLACK BEARD	Perennial that should be planted in full sun. Dark near black foliage with lilac colored flower stalks. Hardy and adaptable. Height 30". Width 24". Zone 3-8.	Penstemon	
PENSTEMON, HUSKERS RED	Perennial that can be planted in full to part sun. Fast growing with deep burgundy foliage. Lavender flowers attract butterflies all summer long. Height 2.5-3'. Width 1'. Zone 2-10.	Penstemon	
PENSTOMEN, RONDO MIX	Perennial that should be planted in full sun. Mix of pink, red, and violet flowers July-September. 16" tall green foliage. Zone 4-8.	penstomen barbatus	
PEONIE, CORA LOUISE	Perennial that should be planted in full sun. Light pink flower with deep pink eye. Highly fragrant and bloom late spring. Height and width 3'. Zone 4-7.	Paeonia	
PEONIE, CORAL SUNSET	Perennial that should be planted in full to part sun. Vigorous grower. First to bloom with coral ruffled flowers. Height and width 3'. Zone 3-8.	Paeonia	
PEONIE, ITOH YUMI	Perennial that should be planted in full to part sun. Exceptionally large lemon yellow double blooms. Height and width 2'. Zone 4-8.	Paeonia	
PEONIE, MADAME EMILE	Perennial that should be planted in full sun. Hot pink double blooms in late spring. Height 2'. Width 3'. Zone 4-8.	Paeonia	
POENIE, SINGING IN THE RAIN	Perennial that should be planted in full to part sun. Deer resistant. Fragrant apricot flowers. Vigorous grower. Height and width 3-4'. Zone 4-9.	Paeonia	

PEONY, SORBET	Perennial that should be planted in full to part sun. 5" multi colored blooms in the spring. Deer resistant. Height 3'. Width 2-3'. Zone 3-8.	Paeonia	
PERSIAN IRONWOOD, VANESSA	Small columnar tree that should be planted in full to part sun. Red flowers in the spring. Green foliage turns yellow and red in the fall. Exfoliating bark exposes grey, green and cream colors. Height 15-25'. Width 10'. Zone 4-7	parrotia persica	
PHLOX, AMAZING GRACE CREEPING	Perennial that should be planted in full to part sun. White flowers with reddish eyes bloom all summer. Attracts butterflies. Height 6". Width 12-18". Zone 3-9.	Phlox subulata	
PHLOX, BLUE BOY	Perennial that should be planted in full to part sun. Purple blue flowers in July and August. Deer resistant. Height 3-4'. Width 1-2'. Zone 4-8.	phlox	
PHLOX, BRIGHT EYES	Perennial. Plant in full sun. Pale pink flowers with dark centers held above disease resistant foliage. Height 3'. Width 2'. Zone 4-8.	phlox paniculata	
PHLOX, BUBBLEGUM PINK	Perennial that should be planted in full sun. Mildew resistant. 6" pink flower clusters. Blooms mid-summer through fall. Height and width 1-2'. Zone 3-9.	phlox paniculata	
PHLOX, CANDY STRIPE CREEPING	Perennial that should be planted in full sun. Fragrant pink and white striped flowers all summer. Height 4-6". Width 24". Zone 3-8.	Phlox subulata	
PHLOX, DAVID	Perennial- full to part sun. White flowers from June through Sept. Deer resistant. Height 2-4' Spread 2-3' Zone 3-8	phlox	
PHLOX, DOUBLE HITTER	Perennial. Plant in full to part sun. Pink-purple flower clusters in the summer. Height 3'. Width 2'. Zone 4-8.	phlox paniculata	
PHLOX, EMERALD BLUE	Perennial groundcover. Plant in full sun. Lavender bloom in late spring. Butterfly magnet. Height 4". Width 18". Zone 3-9.	Phlox subulata	

PHLOX, FORT HILL CREEPING	Perennial that should be planted in full sun. Pink flowers in spring. Attracts butterflies. Height 6". Width 12-18". Zone 2-9.	Phlox subulata	
PHLOX, FASHIONABLY EARLY CRYSTAL	Perennial that should be planted in full sun. Early bloomer with crystal white flowers that have a light purple center. Height 30". Width 30". Zone 4-8.	phlox	
PHLOX, FRANCES SHUBERT	Perennial that should be planted in full sun. Fragrant lavender flowers that are deer resistant. Height 3'. Width 2'. Zone 3-8.	phlox	
PHLOX, GLAMOUR GIRL	Perennial that should be planted in full sun. Blooms hot coral flowers in summer and fall. Attracts butterflies and hummingbirds. Height 30". Width 18". Zone 4-8.	Phlox paniculata	
PHLOX, GRAPE LOLLIPOP	Perennial that should be planted in full sun. This garden phlox has deep purple flowers with a lighter eye. Height and width 18-24". Zone 3-9.	phlox paniculata	
PHLOX, LAURA	Plant in full sun. Bright purple flowers with white centers. Mildew resistant. Height 4' and width 2'. Zone 3-8.	Phlox	
PHLOX, MISS CANDY	Perennial that should be planted in full to part sun. Hot pink flowers in summer. Height 4'. Width 3'. Zone 4-8.	phlox	
PHLOX, NICKI	Perennial- plant in full sun. Darkest of the purple phlox, blooms July through August. Mildew resistant. Height 24-30" Spread 12-14" Zone 4-8	phlox`	
PHLOX, STARFIRE	Perennial. Plant in full to part sun. Large red flower clusters all summer. Height 2-3'. Width 2'. Zone 4-8.	phlox paniculata	
PINCUSHION FLOWER, FAMA DEEP BLUE	Perennial that should be planted in full sun. Largest flowering of the family. Deep blue flowers all summer. Attracts hummingbirds and butterflies and is deer resistant. Height 24". Width 18". Zone 4-10.	Scabosia caucasica	

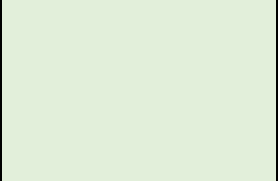

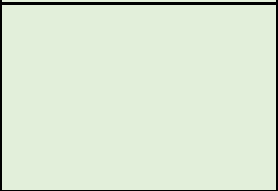

PINCUSHION FLOWER, PINK MIST	Perennial that should be planted in full sun. Attracts butterflies and hummingbirds. Pink-lavender blooms in spring through frost. Height 15". Width 15". Zone 3-8.	scabosia columbaria	
PINCUSHION FLOWER, YELLOW	Perennial. Plant in full sun- attracts butterflies. Blooms light yellow in the late spring. Height 18-24". Width 12-15". Zone 5-9.	scabosia ochroleuca	
PINE, BLUE SHAG	Evergreen that should be planted in full to part sun. Soft blue-green needles. Height and width 2-4'. Zone 3-8.	pinus strobus	
PINE, BLUE SHAG TREE	Evergreen that should be planted in full to part sun. Soft blue-green needles. Height and width 2-4'. Zone 3-8.	pinus strobus	
PINE, BOSNIAN	Evergreen that should be planted in full sun. Very dense habit with purple cones. Height 40'. Width 10'. Zone 4-8.	pinus leucodermiss	
PINE, DWARF MUGO	Plant in full sun. A hardy and rugged small evergreen with a mounded shape. Height 3-5'. Spread 3-6'.	Pinus mugo pumillo	
PINE, DWARF WHITE	Evergreen that should be planted in full sun. Rounded irregular form with silvery blue needles. Height 3-7'. Width 6'. Zone 3-8.	pinus strobus	
PINE, JAPANESE WHITE	Evergreen that should be planted in full sun. Slow growing with an open form. Blue-green needles. Height 20'. Width 10'. Zone 4-9.	pinus parviflora	
PINE, RED	Evergreen that should be planted in full to part sun. Dark green needles. Orange/reddish bark. Height 40-80'. Width 15-30'. Zone 2-5.	pinus resinosa	
PINE, SWISS STONE	Evergreen that should be planted in full sun. Slow growing with a compact form. White striped needles with violet cones. Height 10-12'. Width 6'. Zone 3-7.	pinus cembra	

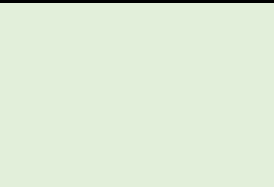

PINE, VANDERWOLF	Evergreen that should be planted in full sun. Silvery blue green needles. Height 20-25'. Width 10-15'. Zone 4-7.	pinus flexilis	
PINE, WHITE	Fast-growing, native pine. Loosely pyramidal at young age, becomes more gnarled, open, and irregular with age. Excellent as windbreak or screen. Height 50-80 feet.	Pinus strobus	
PINE, WHITE COLUMNAR	Columnar evergreen that should be planted in full sun. Protect from winter wind if possible. Deep green foliage. Height 40'. Width 15'. Zone 3-8	pinus strobus	
PLUM, NEWPORT	Plant in full sun- fast grower. Dark purple foliage grows on a tree that has a rounded form. Pink flowers in the spring. Height 20' Spread 15' Zone 4-9	prunus	
POTENTILLA, HAPPY FACE WHITE	Flowering shrub that should be planted in full to part sun. Mounded form with white flowers that blooms all summer long. Height and width 2-3. Zone 2-7.	potentilla fruticosa	
POTENTILLA, HAPPY FACE YELLOW	Flowering shrub that should be planted in full to part sun. Mounded form with yellow flowers that blooms all summer long. Height and width 2-3. Zone 2-7.	Potentilla fruticosa	
POTENTILLA, PINK PARADISE	Fast growing shrub that should be planted in full to part sun. Pink flowers all summer long hold their color better than most pink varieties. Height and width 2-3'. Zone 2-7.	potentilla fruticosa	
POTENTILLA, RED ACE	Fast growing shrub that should be planted in full sun. Red flowers that fade to yellow in the heat. Height 2-3'. Width 3-4'. Zone 3-7.	potentilla fruticosa	
PRAIRIE CONEFLOWER	Native perennial wildflower that should be planted in full to part sun. Spreads by seed. 1.5" tall center cone. Yellow flower petals. Blooms June-August. Drought tolerant. Height and width 1.5-3'. Zone 3-9.	ratibida columnifera	
PRIVET, GOLDEN TICKET	Shrub that should be planted in full to part sun. Easy to grow and shear into a hedge. Bright golden foliage. Height 4-6'. Width 4-6'. Zone 5-8.	ligustrum fruticosa	

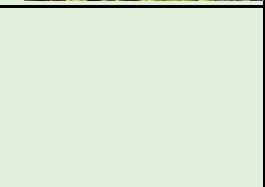

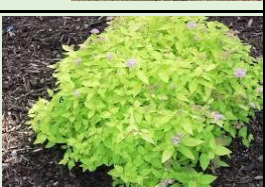

REDBUD, ALLEY CAT	Small ornamental tree that should be planted in full to part sun. Vibrant variegated green and white foliage. Dark pink flowers in the spring. Height and width 20'. Zone 5-9	Cercis canadensis	
REDBUD, EASTERN	Dainty vase shaped tree bears small pink flowers in spring before leaves appear. Has brilliant yellow fall color and brown fruit pods. Good in sun or part shade. Zone 4. Height and spread 20-30 feet.	Cercis canadensis	
REDBUD, FLAME THROWER	Small ornamental tree that should be planted in full to part sun. Heart-shaped foliage emerges burgundy, turning to yellow and then green. Purple flowers in the spring. Height and width 15'. Zone 5-9.	Cercis canadensis	
REDBUD, GOLDEN FALLS	Dwarf ornamental tree with a narrow weeping form. Full to part sun. Pink flowers in the spring followed by bright yellow-lime foliage. Height 8-10'. Width 3-4'. Zone 5-9.	Cercis canadensis	
REDBUD, PINK HEARTBREAKER	Ornamental weeping tree with a spreading habit. Should be planted in full to part sun. Pink flowers followed by green foliage. Height 12'. Width 10'. Zone 5-9.	Cercis canadensis	
REDBUD, RUBY FALLS	Ornamental weeping tree. Very compact. Lavender red flowers in the spring. Dark burgundy foliage. Height 6-8'. Width 5'. Zone 5-9.	Cercis canadensis	
RHODODENDRON, HELLIKI	Semi evergreen shrub. Well drained soils a must. Plant in part sun. Dark fuchsia flowers in spring. Height and width 4-5'. Zone 4-8.	rhododendron	
RHODODENDRON, HOOPLA	Plant this shrub in part sun. Moderate grower with pink flowers and a yellow center. Very cold hardy. Height and width 5-7'. Zone 4-7.	rhododendron	
RHODODENDRON, MARCH MADNESS	Flowering shrub that blooms 3 weeks earlier than others. Vigorous and cold hardy with rose colored flowers. Plant in part sun. Height 5-7'. Width 5-7'. Zone 4-8.	rhododendron	
RHODODENDRON, PJM	Slow growing shrub that should be planted in part sun. Leathery dark green foliage bears masses of lavender blooms in early spring. Height 3-6'. Spread 3-5'.	rhododendron	

RHODODENDRON, RAMAPO	Cold hardy shrub that should be planted in full to part sun. Compact habit. Light purple flowers in the spring. Height and width 2'. Zone 4-8.	rhododendr on	
ROSE, FLOWER CARPET RED	Plant in full sun. Highly disease resistant rose that has fragrant peachy colored blooms that turn to pink. Flowers all summer long. Height 24-30". Spread 24-30".	Rosa	
ROSE, HARDY MINIATURE PINK	Shrub that should be planted in full sun. Light pink flowers all summer long. Height and width 1.5'. Zone 3-7.	rosa	
ROSE, KNOCKOUT PINK	Plant in full sun. Disease resistant foliage holds up medium pink 3" wide flowers. Ever blooming. Height 3'. Spread 3'.	Rosa	
ROSE, KNOCKOUT RED	Plant in full sun. Disease resistant foliage holds up 3.5" red flowers. Ever blooming. Height 3'. Spread 3'.	Rosa	
ROSE, OSO EASY DOUBLE RED	Plant this rose in full sun. Disease resistant foliage with red flowers all summer long. Height and width 3'. Zone 5-9.	rosa	
ROSE, OSO EASY MANGO SALSA	Plant this rose in full sun. Disease resistant foliage with deep mango pink flowers all summer long. Cold hardy. Height 2'. Width 3'. Zone 4-9.	rosa	
ROSE, OSO EASY PAPRIKA	Shrub that should be planted in full sun. Cold hardy and disease resistant. Deep orange blooms all summer. Height 1-2'. Width 3'. Zone 4-9.	rosa	
ROSE, OSO EASY PECHY CREAM	Plant this rose in full sun. Disease resistant foliage hold peach flowers with yellow centers all summer long. Cold hardy. Height 1'. Width 3'. Zone 4-9.	rosa	
ROSE, OSO EASY, PINK CUPCAKE	Shrub hat should be planted in full sun. Cold hardy and disease resistant. Hot pink flowers re-bloom all summer. Height 2'. Width 4'. Zone 4-9.	rosa	

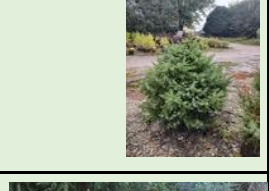

RUSSIAN SAGE	Perennial. Upright growing plant likes full sun and well drained soils. Tall lavender blue flower spikes contrast nicely with the gray-green foliage. Height 3-5'. Spread 3-4'.	Perovskia atriplicifolia	
RUSSIAN SAGE, BLUE JEAN BABY	Perennial that should be planted in full sun. Fragrant silver foliage covered in blue flowers. Pollinator magnet. Height 30". Width 3'. Zone 4-9.	Perovskia atriplicifolia	
RUSSIAN SAGE, LITTLE SPIRE	Perennial. Upright growing plant likes full sun and well drained soil. Tall lavender blue flower spikes contrast nicely with the gray-green foliage. Height 24". Spread 18-24".	Perovskia	
RUSSIAN SAGE, SAGE ADVICE	Perennial that should be planted in full sun. Drought tolerant and deer resistant. Purple flowers all summer. Height 3'. Width 2'. Zone 4-9.	Perovskia atriplicifolia	
SALVIA, BLUE MARVEL	Perennial that should be planted in full sun. Ultra large violet blooms start early summer. Repeat bloomer. Height and width 12". Zone 4-9.	salvia nemorosa	
SALVIA, BUMBLE BLUE	Perennial that should be planted in full sun. Dark violet blue flowers most of the summer. Heavy bloomer. Pollinator magnet. Height and width 12". Zone 3-8.	salvia nemorosa	
SALVIA, CRYSTAL BLUE	Perennial that should be planted in full sun. Light sky blue flowers early summer. Deer resistant. Height 18". Width 24". Zone 3-8.	salvia nemorosa	
SALVIA, LYRCAL ROSE	Perennial. Plant in full sun. Pink flower spikes all summer long. Height and width 24". Zone 4-9.	salvia nemorosa	
SALVIA, LYRICAL SILVERTONE	Perennial. Re-bloomer that takes full sun. Deep blue flowers with a silver undertone. Height 24". Width 24". Zone 4-9.	salvia nemorosa	
SALVIA, MAY NIGHT	Perennial. Plant in full sun. Medium growth rate and prefers moist, well drained soils. Long lasting deep purple flower spikes. Height 18". Spread 18".	Salvia nemorosa	

SALVIA, MOULIN ROUGE	Perennial that should be planted in full sun. Bold rose-pink flowers stalks in the summer. Height 24". Width 30". Zone 3-8.	Salvia	
SALVIA, PERFECT PROFUSSION	Perennial that should be planted in full sun. Reblooming icy blue flower stalks in the summer. Deer resistant. Height 16-20". Width 16-20". Zone 4-9.	Salvia nemorosa	
SALVIA, ROSE MARVEL	Perennial that should be planted in full sun. Ultra large rose blooms start early summer. Repeat bloomer. Height and width 12". Zone 4-9.	salvia nemorosa	
SALVIA, SNOWHILL	Perennial that should be planted in full sun. Thick spikes of bright white flowers all summer. Height and width 15". Zone 4-9.	Savlia x sylvestris	
SAMBUCUS, LACED UP	Shrub that should be planted in full to part sun. Columnar habit with near black lacy foliage. Pink flowers in the spring. Height 6-10'. Width 3-5'. Zone 4-7.	sambucus-elderberry	
SAMBUCUS, LEMONY LACE	Plant this shrub in full to part sun. Lime colored foliage with yellow flowers. Height and width 3-5'. Zone 3-8.	sambucus	
SASSAFRAS	Native tree that should be planted in full to part sun. Will sucker out. 3 types of leaves at once- single, single lobe, double lobed. Yellow, red, and orange fall color. Height 40'. Width 30'. Zone 3-8.	sassafra albidum	
SEDUM, AUTUMN FIRE	Perennial. Plant in full to part sun. Grey-green foliage holds up pink flowers that bloom late in the summer through frost. Height 24". Spread 24".	Sedum herbstfruede	
SEDUM, DRAGONS BLOOD	Spreading perennial that should be planted in full sun. Deer resistant succulent. Attracts butterflies and hummingbirds. Height 4". Width 12". Zone 3-9.	Sedum spurium coccineum	
SEDUM, DREAM DAZZLER	Perennial groundcover. Deep purple foliage edged with hot pink. Plant in full sun and not too much water. Height 6". Width 2'. Zone 4-9.	sedum	

SEDUM, PARTY HARDY	Perennial that should be planted in full sun. Small compact form with large bright pink flower heads. Attract butterflies and hummingbirds. Height and width 15". Zone 4-8.	sedum	
SEDUM, POP STAR	Perennial that should be planted in full to part sun. Dense blue-green foliage. Salmon pink flowers in early fall. Height 12". Width 18". Zone 3-9.	sedum	
SEDUM, PURE JOY	Perennial that should be planted in full sun. Serrated blue green foliage for a perfect round mass. Late summer bubblegum pink flower heads cover the plant. Height 12". Width 18". Zone 3-9.	sedum	
SERVICEBERRY, AUTUMN BRILLIANCE TREE	Foliage is blue green, turning to bright red orange in fall. White blossoms in spring, followed by purplish black fruit. Light gray bark. Fast growing, heavy branching. Clean summer foliage. Available in Tree, Shrub, or Clump form.	Amelanchie r x grandiflora "Aut Brilliance"	
SMOKEBUSH, GOLDEN SPIRIT	Shrub that should be planted in full to part sun. Fast growing with lime green to gold foliage. Pink airy blooms in the summer. Height 8'. Width 6'. Zone 4-8.	cotinus coggyria	
SMOKEBUSH, ROYAL PURPLE	Shrub that should be planted in full sun. Fast growing with reddish purple leaves. Purple airy blooms in the summer. Height 15'. Width 10'. Zone 4-8.	cotinus coggyria	
SMOKEBUSH, WINECRAFT BLACK	Shrub that should be planted in full to part sun. Fast growing with deep purple foliage that turns red and orange in the fall. Purple airy blooms in the summer. Height 4-6'. Width 4-6'. Zone 5-8.	cotinus coggyria	
SMOKEBUSH, WINECRAFT GOLD	Shrub that should be planted in full to part sun. Fast growing with bright yellow foliage. Pink airy blooms in the summer. Height 4-6'. Width 4'. Zone 5-8.	cotinus coggyria	
SNAKEROOT, CHOCAHOLIC	Perennial that should be planted in the shade. Purple foliage with mauve flowers. Native and deer resistant. Height and width 4'. Zone 4-8.	cimifuga	
SOURWOOD	Native tree that should be planted in full to part sun. Slow growing. Creamy white flowers in spring. Crimson red fall color. Height and width 25'. Zone 5-9.	oxydendru m arb.	

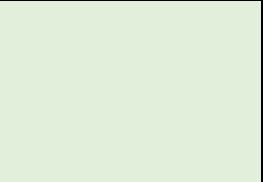

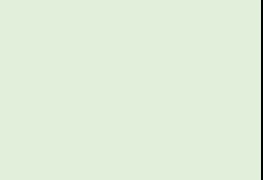

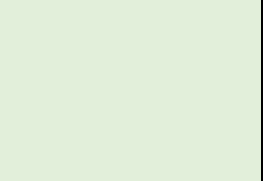

SPIREA, CANDY CORN	Shrub that should be planted in full to part sun. New growth comes out red to yellow and then to orange. Dark purple flowers in the spring. Deer resistant. Height and width 18-24". Zone 4-7.	spiraeea japonica	
SPIREA, DAKOTA GOLDCHARM	Plant in full sun- low mounded form. Golden leaves with pink flowers that bloom all summer. Height 15-18" Spread 2-3' Zone 3-8	spiraeea japonica	
SPIREA, DOUBLE PLAY RED	Shrub that should be planted in full to part sun. Red flowers on a dense mound of dark green foliage. Height and width 2-3'. Zone 3-8.	spiraeea japonica	
SPIREA, GOLDFLAME	Moderate growing shrub that should be planted in full sun. Has a low mounding form. Foliage in the spring is red turning to golden yellow and then green. In fall the foliage turns copper-orange. Flowers are pink and bloom in the mid	Spirea x bumalda	
SPIREA, GOLDMOUND	Shrub that should be planted in full to part sun. Vibrant golden foliage topped with pink flowers. Mounding habit. Height 2'. Width 3-4'. Zone 4-8.	Spirea japonica	
SPIREA, LIMEMOUND	Fast growing hardy shrub. Bright lemon colored foliage one red stems. Pink flowers in the summer. Plant in full sun. Height 3'. Width 4'. Zone 3-9.	Spirea x bumalda	
SPIREA, LITTLE PRINCESS	Fast growing shrub that tolerates sun or shade. Mint green foliage in the summer forms a small dense plant. Fall foliage is purple-red. Flowers are pink and bloom all summer. Height 2-3'. Spread 3-5'.	Spirea japonica	
SPIREA, MAGIC CARPET	Low spreading shrub that requires full sun. Foliage emerges deep red turning to yellow-green and has a crimson flower. Fall foliage is a deep russet red. Height 18". Spread 24".	Spirea japonica	
SPIREA, NEON FLASH	Fast growing shrub that tolerates most soils and should be planted in full sun. Has a compact rounded form. Summer foliage is purple turning to dark green and has re-blooming reddish pink flowers. Fall foliage is burgundy. Height 2-3'.	Spirea x bumalda	
SPIREA, PAINTED LADY	Shrub that should be planted in full to part sun. Speckled green and yellow foliage with bright pink flowers in the summer. Deer resistant. Height and width 2-3'. Zone 4-8.	spiraeea japonica	

SPIREA, RENAISSANCE	Shrub that should be planted in full sun. Graceful branches are covered in white flowers all spring. Orange and red fall color. Height 5-6'. Width 5-6'. Zone 3-7.	Spirea x vanhouttei	
SPIREA, SHIROBANA	Shrub that should be planted in full to part sun. Moderate grower with white, pink and red flowers in the summer. Deer resistant. Height and width 2-3'. Zone 4-8.	spiraea japonica	
SPRUCE, BABY BLUE EYES	Evergreen that should be planted in full sun and well drained soil. Dense, uniform habit with intense blue needles. Zone 3-7. Height 15-20' and width 8-12'.	Picea pungens	
SPRUCE, BIRDS NEST	Slow growing evergreen that has a spreading form. Dark green-blue needles. Plant in full sun. Height 4-5'. Spread 5'. Zones 3-8.	Picea abies nidiformis	
SPRUCE, BLACK HILLS	Short blue-green needles. Shears well. Dense, symmetrical, cone shaped habit. Landscape accent or windbreak. Full sun. Height 35-45 feet. Spread 10-15 feet, larger with age.	Picea glauca "Densata"	
SPRUCE, BLUE TOTEM	Evergreen that should be planted in full sun. Slow growing columnar blue spruce. Height 12-15'. Width 2-3'. Zone 3-8.	Picea pungens glauca	
SPRUCE, COLORADO BLUE	Varies in color. Symmetrical, pyramidal shaped evergreen. Dense foliage requires little shearing. Rigid, tiered branching. Stiff needles. Prefers well-drained soil in full sun. Height to 60 feet. Spread 10-20 feet.	Picea pungens "Glauca"	
SPRUCE, COLORADO BLUE WONDER	Grey-blue needles with a uniform shape. Deer resistant, salt tolerant, and drought tolerant. Height 40'. Width 20'. Zone 3-7.	Picea pungens glauca	
SPRUCE, COLORADO BLUE MAJESTIC	Super blue needles. One of the largest blue spruce varieties- up to 70'. Zone 3-7.	Picea pungens "Glauca"	
SPRUCE, DWARF BLACK	Compact rounded evergreen. Dense blue-green needles. Slow growing. Height 1-2'. Width 2-3'. Zone 3-7.	picea mariana nana	

SPRUCE, DWARF NORWAY	Plant in full sun. Slow growing, globe shaped evergreen with light green needles. Attracts birds and is very cold hardy. Height 4'. Spread 4-5'.	Picea abies pumilla	
SPRUCE, FAT ALBERT	Plant in full sun. Slow growing evergreen with rich blue green needles. Very densely branched. Height 10-15'. Spread 10'.	Picea pungens glauca	
SPRUCE, GLOBE BLUE	Plant in full to part sun- slow grower. Intense blue color and densely branched with a flat topped, rounded form. Grafted to a tree. Height 3-5' Spread 5-6' Zone 2-8	picea pungens globosa	
SPRUCE, GLOBE BLUE TREE	Plant in full to part sun- slow grower. Intense blue color and densely branched with a flat topped, rounded form. Height 3-5' Spread 5-6' Zone 2-8	picea pungens globosa	
SPRUCE, HOOPSI	Powder blue new growth. Plant in full sun. Irregular open shape. Height 20'. Width 10-15'. Zone 2-8.	Picea pungens glauca	
SPRUCE, ISELI FASTIGIATE	Extremely narrow and dense evergreen. Bright blue needles. Plant in full sun. Height 10'. Width 4'. Zone 2-8.	Picea pungens glauca	
SPRUCE, NORWAY	Plant in full sun- largest and fastest growing of the spruce. Medium green color. Height 40-80' Spread 25-30' Zone 2-7	picea abies	
SPRUCE, COLUMNAR NORWAY	Evergreen that should be planted in full sun. Elegant and upright with dense branching that withstands heavy snow loads. Height 20'. Width 6'. Zone 2-7.	Picea abies cupressina	
SPRUCE, SERBIAN	Large evergreen that should be planted in full sun. Narrow form with dark green- silver needles. Height 40-50'. Width 20-30'. Zone 4-7.	picea omorika	
SPRUCE, THE BLUES WEEPING	Evergreen that should be planted in full sun. Irregular weeping form. Height 5-6'. Width 5-6'. Zone 2-7.	Picea pungens	

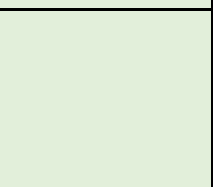

SPRUCE, WEeping NORWAY	Evergreen that should be planted in full sun. Low growing with branches that weep outward. Slow grower. Height 3-4' unless staked upright. Width 12-15'. Zone 2-8.	<i>Picea abies pendula</i>	
SPRUCE, WEEPEING WHITE	Evergreen that should be planted in full to part sun. Narrow, weeping form. Height 20'. Width 6'. Zone 2-8.	<i>picea glauca</i>	
SPRUCE, WHITE	Plant in full to part sun- medium growth rate. Narrow form. Height 40-60' Spread 10-20' Zone 2-7	<i>picea glauca</i>	
SUMAC, GRO-Low	Tough and fast growing shrub that should be planted in full to part sun. Can be used as a ground cover on banks and slopes. Fragrant green foliage turns red in fall. Height 2-3'. Width 6-8'. Zone 3-7.	<i>Rhus aromatica</i>	
SUMAC, TIGER EYES	Plant in full to part sun. Upright rounded shrub. New foliage is green changing to yellow, orange, and scarlet. Cut leaf. Stems are rosy pink. Height 6'. Spread 6'.	<i>Rhus typhina</i> <i>baitiger-staghorn</i>	
SWEETGUM, HAPPIDAZE	Shade tree that should be planted in full sun. Pyramidal shaped and fast growing. Green deeply lobed foliage turns red and purple in the fall. Seedless variety. Height 50'. Width 40'. Zone 5.	<i>Liquidambar styraciflua</i>	
SWEETGUM, WORPLESDON	Shade tree that should be planted in full sun. Pyramidal shaped and fast growing. Green deeply lobed foliage turns red and purple in the fall. Fruit is messy and should be placed appropriately. Height 40'. Width 25'. Zone 5.	<i>Liquidambar styraciflua</i>	
SYCAMORE, BLOODGOOD PLANETREE	Fast growing shade tree that is disease resistant. Tolerates wet or dry soils. White exfoliating bark with green foliage turning to yellow in the fall. Height and width 75'. Zone 5-9.	<i>platanus x acerfolia</i>	
SYCAMORE, EXCLAMATION PLANETREE	Large shade tree that is fast growing. Upright pyramidal form- highly disease resistant. Yellow fall foliage. Height 50-60'. Width 30-40'. Zone 4-8.	<i>platanus x acerfolia</i>	
SYCAMORE, SILVERWOOD AMERICAN	Fast growing shade tree that is disease resistant. White exfoliating bark with green foliage turning to yellow in the fall. Height and width 75'. Zone 5-9.	<i>platanus occidentalis</i>	

TRUMPET VINE, YELLOW	Vigorous woody vine. Blooms yellow in the spring and increases blooms with age. Vines to 25'.		
TULIP TREE	Fast growing, oval shaped tree. Summer foliage is medium green turning to bright yellow in the fall. Late spring flowers are large yellow-green with orange center. Height 60-80'. Spread 30-40'.	Liriodendron tulipifera	
TULIP TREE, EMERALD CITY	Upgraded cultivar of the native tulip tree. Upright and oval form. Dark glossy green leaf's. Bright yellow fall color. Height 55'. Width 25'. Zone 4.	Liriodendron tulipifera	
TURKISH FILBERT	Native tree that should be planted in full sun. Produces hazelnuts. Drought tolerant. Corky bark. Yellow fall color. Height 50'. Width 35'. Zone 4-7	corylus cornuta	
TURKISH FILBERT, BURGANDY LACE	Small spreading tree with cut leaf burgundy foliage. Turns orange in the fall. Produces hazelnuts. Height 18'. Width 15'. Zone 4-8.	corylus areolata	
VERONICA, ASPIRE	Perennial that should be planted in full sun. Deep rose colored flower spikes in the summer. Deer resistant and pollinator friendly. Height 6-12". Width 12". Zone 4-8.	Veronica	
VERONICA, BLUE SPRITE	Perennial that should be planted in full sun. Bright blue flower spikes are long blooming in the summer. Deer resistant and pollinator magnets. Height 8". Width 18". Zone 4-8.	Veronica hybrida	
VERONICA, LAVENDER LIGHT SABER	Perennial that should be planted in part sun. Dense foliage holds up soft lavender flower spikes in the summer. Deer resistant and pollinator friendly. Height 30". Width 20". Zone 4-8.	Veronica	
VERONICA, PINK POTION	Perennial that can be planted in full to part sun. Dwarf variety. Pink flowers all summer. Deer resistant. Height 14". Width 20". Zone 4-8.	Veronica	
VERONICA, PURPLE LEIA	Perennial that can be planted in full or part sun. Attracts pollinators. Rosy purple flowers. Upright habit. Height 24". Width 18". Zone 4-8.	Veronica	

VERONICA, SUNNY BORDER BLUE	Perennial. Plant in full to part sun. Violet blue flower spikes bloom throughout the summer. Deer resistant and salt tolerant. Height 18". Spread 18". Zone 4-8.	Veronica	
VERONICA, VERY VANGOUGH	Perennial that should be planted in full to part sun. Bright green foliage with purple flower spikes. Height 18". Width 24". Zone 4-8.	Veronica	
VIBURNUM, ALFREDO	Compact, rounded form of American Cranberry bush. Excellent red fall color and red fruit. Height and spread 5-6 feet.	Viburnum trilobaum "Alfredo"	
VIBURNUM, ALLEGHANY	Shrub that should be planted in full to part sun. Large white clusters of flowers in the spring. Fast grower. Height and width 8'. Zone 5-8.	viburnum rhytidophyll iodes	
VIBURNUM, AUTUMN JAZZ	Clonal selection of Viburnum with excellent upright vase shape. Blooms in late May to mid-June with creamy white flowers, followed by clusters of blue-black fruit. Fall color ranges yellow to burgundy red. Height and spread 10 to	Viburnum dentatum "Autumn Jazz"	
VIBURNUM, BLACKHAW	Large rounded shrub that should be planted in full to part sun. White flower. Red fall color. Blue-black fruit in the fall. Height and width 12-15'. Zone 3-9.	viburnum prunifolium	
VIBURNUM, BLUE MUFFIN	Compact selection of Arrowwood. In spring the plant is covered with white flowers followed by clusters of blue berries which attract birds. Use as low hedge or foundation planting. Full sun or shade. Rounded form. Height and spread 4-5	Viburnum dentatum "Christom"	
VIBURNUM, BURKWOODI MOHAWK	Compact shrub that should be planted in full to part sun. Glossy green foliage turns red in the fall. White flowers in the spring. Black fruit in the winter. Height and width 8' Zone 4-8.	viburnum x burwoodii	
VIBURNUM, CHICAGO LUSTRE	Creamy white flowers cover the plant in mid to late June. Has attractive glossy green foliage, turns golden yellow in fall. Excellent pest and disease resistance. Needs good drainage. H & S = 8-10.	Viburnum dentatum "Synnestvedt"	
VIBURNUM, EMERALD TRIUMPH	Dark-green foliage and white flowers in late spring. Fruit turns bright red in August and changes to black by mid-autumn. Bronze to dark red foliage in the fall. Compact shrub grows 6 to 8 feet wide and high. Dense, rounded form	Viburnum "Emerald Triumph"	

VIBURNUM, MOHICAN	Creamy white, flat-topped flowers cover the plant in May. Orange red fruit in July, turns black in fall. Dark green foliage changes to orange-red fall color. Compact, dense growth makes nice hedge. Full or part sun. H & S = 6-8 feet.	Viburnum lantana "Mohican"	
VIBURNUM, MOHICAN TREE	Creamy white, flat-topped flowers cover the plant in May. Orange red fruit in July, turns black in fall. Dark green foliage changes to orange-red fall color. Compact, dense growth makes nice hedge. Full or part sun. H & S = 6-8 feet.	Viburnum lantana "Mohican"	
VIBURNUM, SNOWBALL	Plant in full to part sun. Large white "snowball" shaped blooms in the spring. Dark glossy green foliage that turns purple and red in the fall. Round form. Height 12'. Width 10'. Zone 3-8.	Viburnum opulus	
VIBURNUM, SPARKLER ARROWWOOD	Hardy shrub that should be planted in full to part sun. Very tolerant and native. Creamy white flowers in the spring followed by dark blue berries in the winter. Green ruffled foliage turns yellow and red in the fall. Height 10-15'. Width	Viburnum dentatum	
VINCA, MINOR BOWLES PERIWINKLE	Perennial. Tolerates sun or shade. Spreading ground cover with small glossy green leaves and blue flowers. Height 4-6". Spread is indefinite.	Vinca minor bowles	
WEIGELA, COCO KRUNCH	Shrub that should be planted in full sun. Very hardy with a moderate growth rate. Dark ruby foliage with bright pink flowers in the late spring. Height and width 2-3'. Zone 4-8.	weigela florida	
WEIGELA, CRIMSON KISSES	Shrub that should be planted in full sun. Rounded form. Bright red flowers in summer through fall. Height and width 3-4'. Zone 4-9.	weigela florida	
WEIGELA, DARK HORSE	Dwarf compact shrub that tolerates full sun to part shade. Dark burgundy pink foliage has deep pink flowers that bloom throughout the summer. Height 2'. Spread 2-3'.	Weigela florida	
WEIGELA, GOLDEN JACKPOT	Rounded shrub with golden foliage all summer long. Seep pink flowers. Height and width 4-6'. Zone 4-8.	weigela florida	
WEIGELA, MAGICAL FANTASY	Plant in full to part sun. White margins on green foliage with profuse soft pink flowers. Height 3-4'. Spread 3-4'.	Weigela florida	

WEIGELA, MIDNIGHT SUN	Dwarf compact shrub that should be planted in full sun. Multi colored foliage- green, purple, and red. Height and width 12-18". Zone 4-8.	weigela	
WEIGELA, MY MONET	Dwarf compact shrub that should be planted in full to part sun. Pink flowers in the spring. Green and white variegated foliage. Height 18". Width 2'. Zone 4-6.	weigela florida	
WEIGELA, MY MONET PURPLE	Dwarf compact shrub that should be planted in full to part sun. Pink flowers in the spring. Heavy bloomer. Green and white variegated foliage with a purple hue. Height 2'. Width 2'. Zone 4-6.	weigela florida	
WEIGELA, MY MONET SUNSET	Shrub that should be planted in full to part sun. Compact mounded form. Yellow and green variegated foliage with purple-pink flowers in the spring. Height and width 12-18". Zone 4-8.	weigela florida	
WEIGELA, PINK POPPET	Spreading shrub that should be planted in full sun. Pink flowers in the spring over green foliage. Height 3'. Width 4'. Zone 4-8.	weigela florida	
WEIGELA, SHINING SENSATION	Round shrub with burgundy foliage. Heavy bloomer in May and June. Pink flowers. Height 5-6'. Width 3-4'. Zone 4-8.	weigela florida	
WEIGELA, SONIC BLOOM PINK	Shrub that should be planted in full sun. Reblooming hot pink flowers throughout the summer. Height and width 4-5'. Zone 4-8.	weigela florida	
WEIGELA, SONIC BLOOM RED	Plant this shrub in full sun. Rounded form is full of blooms in spring. Height and width 4'. Zone 4-9.	weigela florida	
WEIGELA, SPILLED WINE	Plant this shrub in full sun. Deep purple foliage has a spreading habit. showy pink flowers in spring. Height 18". width 24". Zone 4-8.	weigela florida	
WEIGELA, SUNNY SIDE UP	Shrub that should be planted in full sun. Compact mounded form. Bright green foliage. Lots of white flowers with yellow centers. Height and width 3-4.5'. Zone 4-8.	weigela florida	

WEIGELA, TRILOGY	Shrub that boasts 3 different colored flowers all at the same time. White, pink, and red flowers cover this plant in early summer. Green foliage. Height and width 3'. Zone 4-8.	weigela florida	
WEIGELA, VHINO VERDE	Shrub that should be planted in full sun. Lime green foliage edged in black. Pink flowers in the spring. Height and width 5'. Zone 5-8.	weigela	
WEIGELA, WINE AND ROSES	Shrub that should be planted in full sun. Pink flowers over dark purple foliage. Height and width 4-5'. Zone 4-8.	weigela florida	
WEIGELA, WINE AND SPIRITS	Shrub that should be planted in full sun. Creamy white flowers over near black foliage. Vigorous grower. Height and width 5'. Zone 4-8.	weigela florida	
WILLOW, CORKSCREW	Plant in full to part sun. Fast growing. Twisted branching in a weeping form. Height 30'. Width 15-30'. Zone 4-8.	salix mutsundana	
WILLOW, GOLDEN CURLS	Plant in full to part sun. Wavy golden branches. Weeping form. Height 30. Width 20'. Zone 4-7	salix mutsundana	
WILLOW, NASHIKI DAPPLED TREE	Plant in full to part sun, fast grower and likes wet soils. Pink stems with white, green, and pink foliage. Height 10-15' Spread 10' Zone 4-9	salix integra	
WILLOW, WEEPING GRAFTED	Plant in full sun- prefers wet soils. Yellow flowers in early spring on weeping branches. Height 5-6' Spread 5-6' Zone 4-9	salix carpea pendula
